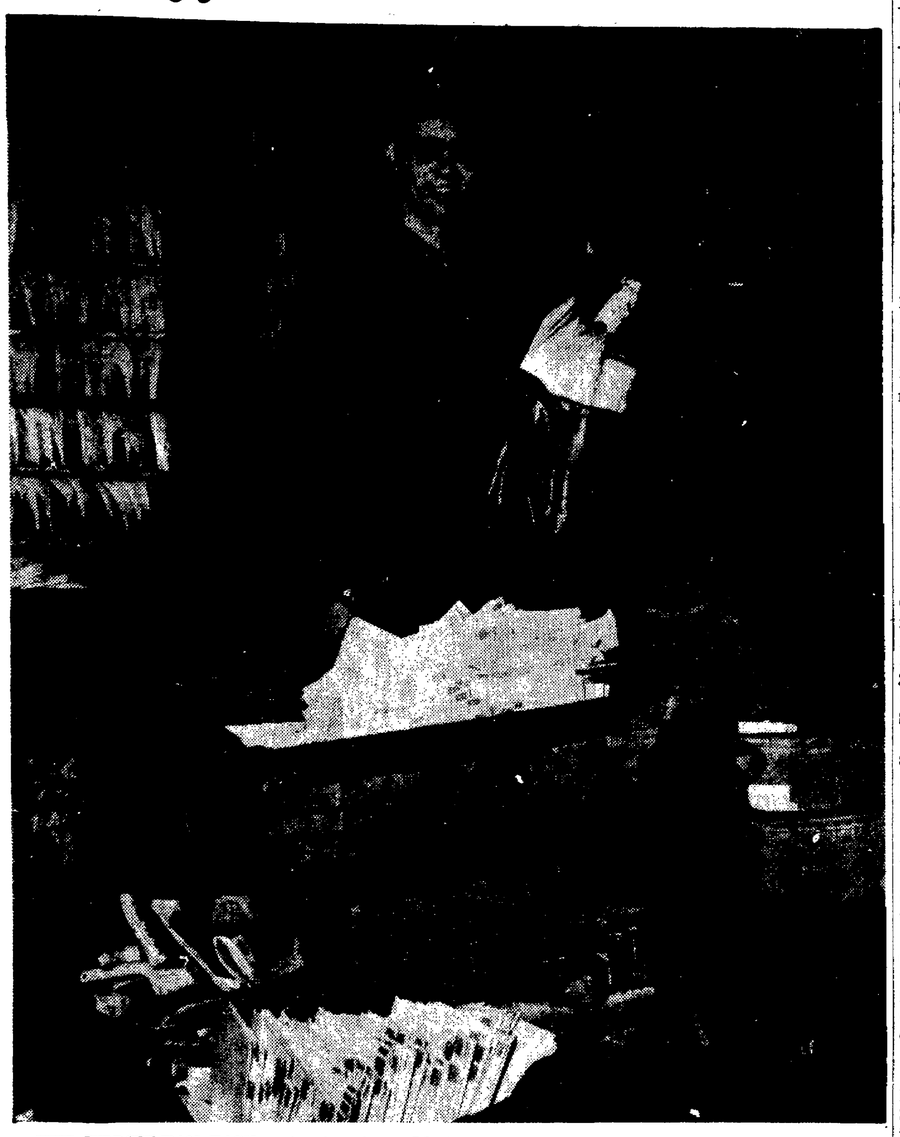
Postoffice Flooded With Mail



THE HERCULEAN TASK which has faced Marion postoffice employes during the last few weeks is shown in part in this picture. So far, this year's Christmas mail load is the largest ever handled by the local postoffice. But Clifford Lake of 322 S. Grand Ave., a regular letter carrier, smiles through it all. During this rush season the postoffice has been handling on the average about 200,000 items per day. Normally, the load is less than 100,000 a day. To help with the rush, the postoffice has employed some 70 extra workers. Postmaster Homer D. Cole reports, however, that the peak has been passed and that he expects to have the load cleaned up by noon Thursday.

Election Fails Again, French Call Time Out

Embarrassed Party Heads Huddle Before 11th Try Tomorrow

VERSAILLES, France (AP)—The badly split French Parliament put off until tomorrow its attempts to elect a new president of the republic. Edouard Herriot and Vincent Auriol, two tired old men who insist they don't want the job, led the field of compromise candidates.

Political leaders held a series of fruitless conferences this morning in attempt to break a six-day deadlock. When the congress met this afternoon to take the 11th ballot since Thursday, there had been no progress in reaching agreement on a candidate who could get the necessary majority vote.

The next session was put off until 10 a.m. (4 a.m. EST) tomorrow in the hope that during this afternoon and tonight some way could be found to avoid further public embarrassment over failure to pick a president.

Herriot and Auriol appeared to be the only likely figures considered above party squabbles. Auriol winds up his present seven-year term as president Jan. 17.

Inter-party conferences were called by Andre Le Troquer, Socialist presiding officer of the electoral congress.

Intervening last night when, on the 10th ballot, no candidate still could poll a majority, Le Troquer declared, "Prolongation of the present situation would endanger the functioning of democratic institutions."

In all previous presidential elections, no more than two ballots have been required.

Youths Elude Road Block Put Up by Patrol, Police

A statewide search for two youths who escaped last night from the Marion Training School is being continued today by law enforcement agencies throughout the area.

The two youths, Kenneth Hale, 19 years old, and Jodie Chaney, 20 years old, were missed at a routine bed check at 10 p.m. last night by guards, Lamoyne Green, School superintendent, reported today.

Investigation revealed tracks leading southward to a fence along the south side of the compound.

—:—

DISCOVERED MISSING shortly afterward was a 1949 Ford automobile parked outside the compound on the School grounds. The car was used by the youths in making their escape from the School. The automobile, owned by a school guard, had a full tank of gasoline at the time of its theft.

Alerted immediately after the escape was discovered shortly af-

Longshoremen Cast Votes on Union Choices

Election Will Settle New York Dock Fight Between AFL and ILA

NEW YORK (AP)—Dock workers arrived in droves today to vote their choice in the struggle between the old International Longshoremen's Assn. and the new AFL-ILA to represent waterfront workers.

A steady stream of longshoremen arrived as the Manhattan polling place opened at 6 a. m., in the federally supervised election. By 7:30 it was estimated 2,500 had voted.

William V. Bradley, head of the independent ILA, appeared outside the polling place, but declined to make any prediction.

"I'm just waiting like you; that's all I have to say," was his only comment.

Christmas Suggestions

Clothing, Games Among Needs of Families Here

This is one of a series describing families and individuals listed with "Give A Christmas" clearinghouse sponsored by the Junior Service Guild at the Salvation Army. Any organization or individual wishing to contribute may obtain the name of a needy family by calling the clearinghouse secretary at 3-2415 before Dec. 24.

Mrs.B., a widow who has no resources but public aid, would be very appreciative of "Give A Christmas" aid of clothing for her four children.

The children are Mary Ann, 15, who is size 14; Meredith, 13, who is also size 14; Betty, 11, and Helen, 9, both of whom are size 10.

Although Mrs. B does a great deal of sewing for her children, including making over of old clothes, there are several clothing needs which just can't be met in that manner.

This condition is particularly true in regard to sweaters for the girls and a good suit for the boy. Meredith is very active in Sunday School and keenly feels the lack of good and suitable clothing.

In another case, a 69-year-old father, who is employed irregularly, has a wife and four children to support. One son, 14 years of age, is confined to bed with rheumatic fever and would like some puzzles and games for entertainment while in bed. The mother is in need of glasses.

Still another family which would appreciate "Give A Christmas" aid is a mother with five children. The father is separated from the family but gives a little toward the support of his wife and children. The mother works two nights each week at a restaurant.

The oldest boy delivers a paper route and would like to have a basketball and basket. A 10-year-old boy needs a bike to ride to school and also to help in doing errands for his mother. He has been given some parts to make up a bicycle but still needs about $15 to buy the rest of the needed parts. Ages of the other children are 6, 5 and 3.

Cold Coming; Drop to Zero Seen Tonight

Strong Winds, Some Snow Flurries Will Accompany New Front

A new cold wave, sending temperatures near the zero mark, is expected to hit Marion tonight.

The official weather forecast is for a drop to the zero-to-15-above range. The cold front is due to move in tonight with strong northwest winds.

Wednesday is expected to be windy and very cold with snow flurries.

Rain yesterday washed out most of the evidence of an earlier cold wave, melting snow from streets and countryside. A total of .44 of an inch of rain was measured at the Marion weather station. The high yesterday was 35 degrees, the low last night was 37. At 11 a.m. today, the reading was 44 degrees.

Storm in West

The Associated Press reported snow and frigid temperatures gripped sections of the Midwest and Rocky Mountain area today, slowing traffic, harassing travelers and giving some school children an early Christmas present.

At least two persons were killed in accidents attributed to the weather.

A storm, arriving with the first day of winter yesterday, dumped more than half a foot of snow on Kansas City in the center of the nation and up to 17 inches in the Colorado mountains.

Transportation Slowed

Trains and buses were running late in some sections and a few bus schedules were canceled. An icy coating on streets and highways caused numerous accidents. Airlines also canceled several flights.

At Wichita, Kan., a freight train plowed into a gasoline transport truck stalled on an icy crossing, injuring three persons. More than 5,000 gallons of high-octane gasoline in the truck burst into flames. Twenty freight cars were derailed.

Some schools in Missouri and Kansas were closed, giving pupils an extra holiday just before the regular Christmas vacation begins.

The snow reached into Wyoming, Iowa, Nebraska and as far south as Oklahoma City, Okla.

Temperatures were expected to drop to near zero or below in most of the states today or tonight.

17-Inch Snowfall

The heaviest fall—17 inches—was reported at Rabbit Ears Pass in the Colorado mountains. The pass is 130 miles northwest of Denver.

The highway patrol said blizzard conditions existed early today in southern and eastern Colorado but mountain passes were still open although slick.

The train-truck collision was one of more than 50 Wichita accidents which police attributed to snow and icy conditions.

Mossadegh Weeps At Conviction, Gets 3 Years in Solitary

TEHRAN, Iran (AP) — A solitary cell today awaited weepy, talkative old Mohammed Mossadegh following his conviction on treason charges. It was not known yet whether he would appeal the sentence given him by a military court.

The five-man tribunal convicted the former Iranian dictator yesterday on 13 counts of trying to unseat Shah Mohammed Reza Pahlevi last summer and sentenced him to three years in solitary confinement. Mossadegh has five days to file an appeal.

His co-defendant and former army chief of staff, Gen. Paghi Riadi, was sentenced to two years and ordered dismissed from the army.

The emotional nationalist leader stood gripping the edge of a bench during the 65-minute reading of the verdict and only mocked the court when it finished.

"I thank you very much for sentencing me," he said. "The sentence has increased my historic glory."

Explosion on Ohio River Gasoline Barge Kills 6

POINT PLEASANT, W. Va. (AP)—Six to eight men were reported killed today in an explosion aboard a gasoline barge at the Ohio River dock of the Marietta Mfg. Co.

One report received by radio at City Hall said eight bodies had been counted. It added that one, burned beyond recognition, had been removed to a funeral home.

The state police headquarters at Charleston, W. Va., had a report from troopers on the scene, about midway between Huntington and Parkersburg, that six bodies had been recovered.

U.S. Wary on Atomic Talks With Russians

RAID NABS THREE ESCAPEES. With guns drawn, Detroit plainclothesmen (top) force their way into the home of hoodlum Joseph Rocco to capture three Jackson prison escapees after the desperadoes had held an all-night drinking party. Convicts arrested were (bottom, left) Edward Emerick, serving life for murder; Virgil Lane, serving 10 to 20 years for armed robbery, and Daniel Bousha, on a 5-to-10 year term for kidnaping. The capture of the three desperadoes left only 2 of the 13 escaped convicts still at large. Rocco (bottom, right) was rounded up also. He is an ex-convict and kidnaper.

Soviet Note Is Scanned for Booby Traps

Professed Readiness To Talk About A-Pool Stirs Some Optimism

WASHINGTON (AP) — Diplomatic officials said today the United States would move cautiously in meeting Russia's professed readiness to talk about the Eisenhower proposal for a pool of atomic materials for peace.

Secretary of State Dulles, who said yesterday of Moscow's reply, "This is hopeful," had a forum to comment further in a foreign policy speech today before a National Press Club luncheon.

Ike Is Silent

President Eisenhower, who broached the peaceful-uses atomic plan in a widely acclaimed United Nations speech Dec. 8, had no comment on Russia's reply.

The President had opportunity to discuss it with some of his top foreign policy, military and atomic advisers at a White House conference this morning. The conference was scheduled before Moscow made public its note yesterday.

Among members of Congress remaining in Washington, the consensus was hopeful but cautious. Most lawmakers who commented said the Kremlin response was encouraging, but that this government should move with great care.

Dulles clearly foreshadowed in a formal statement yesterday a move by the United States to provide the "necessary explanation" Russia requested about Eisenhower's proposal.

Decision Not Reached

Whether the President and Dulles will decide this additional information should be provided secretly as part of the confidential talks suggested by Eisenhower has not yet been decided.

"The United States will, through the new channels which the Soviet Union now accepts, explore every possibility of securing agreement and bringing President Eisenhower's historic proposal into the realm of creative action," Dulles said.

At the same time, Dulles emphasized Russia "seems not to have caught the spirit of the

Detroit Police Comb City for Two Escapees

False Clues Slowing Search; Trio Captured After Reporter's Tip

DETROIT (AP)—A series of false tips in this nervous city slowed cautious police efforts today to track down the two remaining fugitives from Saturday's 13 - man Southern Michigan prison break.

One of the escapees still at large, was Roman Usiondek, convicted murderer and criminal psycopath, known to be dangerous. The other, Robert Dowling is a convicted burglar.

Fruitless Search

A phoned, anonymous tip last night that Usiondek was in a dingy southwest section hotel, sent police through a careful but fruitless search.

Still another tip last night electrified the police network in the southwest area where yesterday three of the escapees were trapped in a small frame house and captured without a fight.

But the tip, unlike the earlier one to a Detroit newspaperman that led to the capture of the trio, was evidently groundless.

The earlier tip came through Ray Girardin, veteran reporter of the Detroit Times, who was approached by an unidentified man with the information that the three escaped convicts were hiding in the home of Joseph Rocco, an ex-convict.

Caught Watching TV

Police found Daniel B. Bousha, 28, Edward J. Emrick, 43, and Virgil Lane, 27, watching television in the home. They gave up without a fight.

The three were part of the gang that crept through a sewer, and cut the grates at the open end to escape from the gigantic prison.

Police also held Rocco and Irvin Sullivan of Detroit for investigation of harboring fugitives. Rocco, paroled in 1937 from Southern Michigan Prison, said he had met Emrick while at the prison. But all three of the escapees entered his home Sunday night. They were there, Rocco said, when he came home from work.

He added that the three refused to leave or let him, his wife or Sullivan, who was visiting the Rocco home, leave.

Usiondek has repeatedly sworn

Reds Threaten Peace Efforts In Holy Land

UNITED NATIONS, N. Y. (AP)—The threat of Soviet veto hung today over a key part of a Western formula for mediation of the Syrian-Israeli dispute over the waters of the River Jordan.

Soviet Delegate Andrei Y. Vishinsky voiced the threat yesterday after the Reds had sat quietly at the Security Council table during almost two months of debate on the issue. The veto would be Russia's 57th since the 11-nation Council started functioning eight years ago.

In an effort to get the Jordan River question settled before Christmas, the council scheduled two meetings today.

Vishinsky objected generally to provisions of the resolution put forward last week by the United States, Britain and France. Until yesterday, he had been expected to abstain, but he warned that he would vote against the main provision.

This clause would request the U.N. truce chief, Maj. Gen. Vagn

Allies Schedule Final Pleas to Balking POWs

Last Appeal To Be Broadcast Before Wednesday Deadline

PANMUNJOM (AP)—The Allies today scheduled last-minute "come home" broadcasts to the 22 American POW's who embraced communism as hope of face-to-face talks with them was all but abandoned.

Midnight Wednesday ends the 90-day period for coaxing home war prisoners who rejected repatriation.

The 22 Americans will be listed as absent without leave at that hour. Thirty days later they will be classed as deserters.

The U. N. Command announced it will make three loudspeaker broadcasts to prisoners in the Communist North Camp—one for the Americans, one for the lone Briton and a third for 77 Koreans

British Warn Soviet Attitude Is Unchanged

LONDON (AP) — Britain officially welcomed today Russian willingness to discuss the Eisenhower atomic plan but warned the Kremlin hasn't changed its old attitude toward atomic weapons control.

A foreign office spokesman told a news conference:

"The Soviet note to the United States consists of a restatement of the Soviet attitude towards atomic matters, coupled with an expression of willingness to discuss the Eisenhower proposal.

"The fact that the Soviet government has expressed its willingness to take part in such discussions is a welcome development."

Informants said Prime Minister Churchill is expected to communicate his views shortly to President Eisenhower on the Soviet note, which contained the Kremlin's views on Eisenhower's proposal to create an international atomic energy pool.

In Bonn, the West German government and the opposition Socialists reacted with guarded optimism to Russia's note.

Iron Bars Not Holly Wreaths

No Christmas for Yanks Held Behind Red Curtain

By WARREN ROGERS JR.

WASHINGTON (AP) — Iron bars and the click of Communist rifle bolts are taking the place of holly wreaths and Christmas carols for some Americans abroad this Christmas.

They are the scores—exact figures are hard to come by—of Americans who are behind the Iron Curtain and can't get out.

Estimate 100 in China

Repatriated Austrian prisoners of war reported this fall seeing many Americans in prison camps near Moscow. They gave two names: Leland Towers of San Francisco and Homer H. Cox of Oklahoma City.

In the State Department, officials who handle such matters said today about 100 Americans are in Communist China. Precise numbers are elusive. For one reason, officials believe that some who claim to be Americans actually are not.

Of the 100 or so, it is understood that 31 are imprisoned and one is under house arrest. The others are free to pursue their lives but not to leave Red China.

Most of those in Red China as prisoners are reported to be missionaries. A few are businessmen who did not leave China before the Communists took over and can't gain the necessary clearance to leave now.

Last March 21 three Americans were seized by Red Chinese while sailing aboard the yacht Kert off Hong Kong. Behind the Iron Curtain they went: Donald Dixon of International News Service, Richard Applegate of the National Broadcasting Co. and Capt. Ben Krasner of the American merchant marine.

Behind Iron Curtain

Several Americans have disappeared behind the Iron Curtain in central Europe.

U.S. Ambassador Charles E. Bohlen has taken up the cases of Towers and Cox with the Kremlin.

Plans for Polio Drive Mapped By Committees

Committees with chairmen and co-chairmen have been named for the city's Mother's March on Polio, the climax to the annual March of Dimes campaign in January.

The Mother's March will be conducted on the last night of the month-long campaign, Jan. 28, 1954. On that night, each family in the county will be asked to turn on their porch light between 7 and 8 p.m. to indicate their desire to contribute.

The collection phase has been organized under the direction of Mrs. Obal H. Gearhiser Jr. and Mrs. John J. Dugan, and it is the job of the Sales-Ad Club to direct publicity and promotion.

A general meeting of committee co-chairmen along with the overall March of Dimes chairman and co-chairman, Jay H. Maish Jr. and Bert Freed, and the publicity chairman, Gene Poling, has been called for Dec. 29 at 7:30 p.m. at the YMCA. Robert Kreis is general chairman.

Committees have been appointed as follows: Jack Maxwell and Miss Madge Cooper, co-chairman, John Plank, Robert T. Mason Jr., Barney Bigler, Don Yoder, George Scott, Bob Byrd, James McNoldy, Gordon Bruun and Harold Bonecutter, radio, newspaper, church and PTA organizations; Jack Carr, chairman, Jack Bray Jr., Glenn Walraven and William K. Hamor, sound effects; Louis Rubeck and LeRoy Clauer, co-chairmen, lighting effects; Charles Dunn and Ralph Heischman, co-chairmen, Harold Shigley, Dan Hale, Robert Sullivan, Jack Davis and Dudley Starr, handbills; Don Flach and Jack Lautenslager, co-chairmen, posters and stickers; John Schaffner and Ernest Brady, co-chairmen, John Ewald, Perry Bachelder, Wesley Spangler and A. F. Busch, retail advertising tie-in.

Leave Loophole for Reneging

Russians Hedge on Atomic Conference

By JAMES MARLOW

WASHINGTON (AP) — If the Russians ever answer an invitation with a simple "yes" it will probably be the tipoff they've changed. It has just taken them 3,000 words to say "maybe."

It was in reply to President Eisenhower's suggestion that this country, the Soviets and others sit down and try to agree on a plan for using some of their atomic materials for peaceful purposes.

The Russians said, or they seemed to say, they would talk. But they hedged this seeming acceptance in such a way that they could back off before the talks began or wreck them after they started.

From the end of World War II until now this country and Russia have been deadlocked over how to agree on banning atomic weapons. Meanwhile both have been busy making bigger and better bombs.

When Eisenhower stepped up to address the United Nations Dec. 8, there was no reason to hope there ever would be agreement on the bomb. Then, boiled down, this is what he proposed:

Many steps will have to be taken before we agree on outlawing atomic weapons; let us talk about how to use some of our atomic materials for the good of mankind; if we can agree on that, maybe we can then go on and eventually agree on the bomb.

This was an attempt to find a new path through the woods. The reaction everywhere in the world, except behind the Iron Curtain, was favorable. Even if Russia rejected his proposal, Eisenhower had gained some good will for this country.

After all, all he had proposed was that this country and Russia talk over the idea. And talk wouldn't cost the Russians a dime. Refusing to talk would cost them plenty in world opinion.

The Russians soon let it be known they were seriously considering Eisenhower's proposal.

Yesterday, with their reply of "maybe," the Russians put themselves in the position of appearing just as eager for the talks as Eisenhower, provided—

That's where they gave themselves an out. For almost all of the 3,000 words they propagandized about their peaceloving nature and intentions and insisted:

The really important thing is not agreement on peaceful use of atomic materials but on banning the bomb. They said Eisenhower had ignored the banning problem, although he didn't.

He had said his proposal would "open up a new channel for peaceful discussion and initiate at least a new approach to the many difficult problems that must be solved in both private and public conversations if the world is to shake off the inertia imposed by fear and is to make positive progress toward peace."

This is where the Russians, while seeming to say they would talk with this country, actually gave themselves an opening never to talk or, if they began the talks, to break them up.

They said they expect the United States to do some more explaining—before there are talks—on what Eisenhower has in mind because, they said, he wasnt clear enough in "essential parts."

If they get such explanations, and dont like them, they can make accusations against the United States and refuse to talk.

But if the talks began, the Russians said, they want those taking part to "undertake" pledges not to use the bomb.

This would bring the talks right back to the ban on atomic weapons, the point on which there has been no agreement and which Eisenhower tried to bypass temporarily to get agreement on peaceful use of the atom.

Judge Dismisses Charge Against Marion Attorney

A charge of resisting arrest against J. C. A. Arter, 54, of 264 Bellefontaine Ave. was dismissed in Marion Municipal Court yesterday afternoon by Judge Eugene McNeill of Van Wert.

In his ruling, Judge McNeill cited other similar cases under state law and noted that in the Ohio General Code the law on resisting arrest includes "obstructing, or abusing" an officer in the performance of his duties.

The Marion city law includes only the word "resisting" and this word by itself is interpreted to mean the use of force or quasi-force, Judge McNeill ruled.

Testimony in the hearing indicated Arter had not used force or quasi-force. He had driven his car off while Patrolman Homer Watson was in the process of filling out a double parking ticket to place on his car, Watson testified. This would be "obstructing" not "resisting," according to the opinion expressed by Judge McNeill.

The charge was filed against Arter on Sept. 17 and Judge McNeill was assigned to hear it after Arter filed a motion of prejudice against Judge W. Dexter Hazen and Judge Hazen removed himself from hearing the case.

Arter, a Marion attorney, pleaded his own case in the hearing yesterday.

LARUE CHURCH PROGRAM

A Christmas program will be presented at the LaRue Baptist Church Wednesday at 7:30 p.m. Several classes of the Sunday school will give musical numbers and recitations, and the Baptist Youth Fellowship group will give a pantomime story of "The Birth of Jesus." Narrators will be Barbara Miller, Betty Huntley, Bonita Hall and Julia Oberdier. Musical numbers for the pantomime will be played and sung by members of the Joy Class and the Junior Class.

More than 1,400 chaplains are on duty in the Army. They represent the Roman Catholic, Protestant and Jewish faiths.

Murder, Manslaughter Cases Before Jury Here

Charges of murder, manslaughter, embezlement and larceny are among the 15 criminal cases being considered today and tomorrow by the Marion County grand jury in session at the Courthouse.

The first degree murder charge has been filed against Bert Elswick, 37-year-old Marionite who has admitted strangling his 31-year-old wife, Violet, late on the night of Dec. 5. The murder took place after an argument at the Green Camp village dump where the couple had gone in search of a bottle of wine they had hidden there earlier.

—:—

MANSLAUGHTER charges against John A. Knotts, 23, of Waldo, and Robert I. Massie, 40, of Morral, resulted from traffic deaths occurring within two days of each other in October.

Knotts was the driver of an automobile which struck the side of a freight train at a crossing on County Road 195, north of Marion on Oct. 16. A passenger in the car, Daniel King, 34, of near Marion, was killed.

Massie was the driver of a car which was involved in a head-on collision with a motorcycle early in the morning of Oct. 18. Killed was the motorcycle rider, Clifford L. Clark, 35, of the Werley Hotel. The fatal accident occurred on W. Fairground St. just outside the city.

—:—

TWO COUNTS of embezlement and grand larceny will be considered against Lloyd F. Cornwell, 43, of 605 Emerson Ave., while a charge of receiving stolen property will face Mrs. Sarah Bailey Dawson, 31, of 832 N. Main St. Cornwell has admitted taking merchandise valued at more than $2,000 from the Montgomery Ward and Co. store where he had been employed as a display man. He gave some of the merchandise to Mrs. Dawson, who maintains that she had no knowledge the merchandise was stolen.

For the second time this year, the grand jury will consider an action against Howard Earl Edington, 23, of 358 Milburn Ave. This summer he was acquitted by a Common Pleas Court jury of charges of breaking and entering and attempted criminal assault.

—:—

HE WAS BOUND over to the jury this time on charges of breaking and entering and attempting to open a safe at the Stag Bar and Grill at 462 W. Center St. on Dec. 11.

Grand larceny charges face Ray Martin Coykendall, 18, and Harold David Walker, 25, both of near Marion. They are charged with the theft of $125 worth of merchandise from the Millard Hunt Co. on Nov. 9. In addition, Walker is also charged with the theft of $150 worth of goods on Oct. 24 from a home being constructed on Chatfield Rd.

Their arrest climaxed three months of investigation by Marion police.

Other cases to be considered include: Arbie Sublet Jr., 20, of 616 Park St., auto theft; Virgil Gilmore, 22, of 195 E. Fairground St., breaking and entering; Iden S Webster, 35, of 618 Sugar St., passing bad check; Lloyd Simpson, 40, of 822 Kenton Ave., burglary; and Paul Clarence Sheller, 29, of Alger, passing bad check.

High School Sports Editor Is Shot by Tampa Detectives

TAMPA, Fla. (AP)—The 17-year-old sports editor of a Tampa high school newspaper was shot tonight when detectives found him in a laundry.

"I did it to get money for Christmas," Detective Inspector O. C. Beynon quoted him.

Roy Walker, shot in the arm and chest, was in a Tampa hospital in serious condition, but expected to recover. No charge was brought immediately.

Beynon said Detective Bill Bland shot the boy inside the laundry when he ran instead of obeying an order to surrender.

The boy's father is W. R. Walker, credit manager for a Tampa jewelry company.

CONSCIENCE COURT PAYS

LAWRENCE, Mass. (UP)—First-time juvenile offenders in this mill city go to what is known as a Conscience Court. Police claim that 98 per cent of the youths appearing before this court are converted into model boys and girls. In the past six months, more than $1,200 has been collected in this court to pay for broken windows and other damage resulting from deviltry.

FRIENDSHIP

WESTBROOK, Conn. (UP) — After an election victory over finance board member Daniel Wren, Jr., John A. Holbrook resigned, explaining: "Wren is a very good friend, and I don't want to take his position away from him."

KENTUCKY TRAPPING

FRANKFORT, Ky. (UP) — The fur business may not be as good as it was back in the days of Daniel Boone, but trappers still are making a living in Kentucky. The state's trappers were paid $317,576 for hides last year. Payments included $165,060 for 13,322 mink furs and $134,399 for 110,751 muskrat hides.

Cleveland Teacher Who Defied Probers Ousted

CLEVELAND (AP)—The Cleveland Board of Education yesterday fired "for good and just cause" a 37-year-old teacher who refused to answer questions before the Ohio Un-American Activities Commission.

The board found Edward Likover, an instructor at the Cleveland Trades School, guilty of "conduct unbecoming a teacher."

Likover questioned the legality of the commission when he appeared before it at a hearing here Dec. 2.

Her Silent Love

Here's a typical summertime scene—but with a difference. Now he can hear what she's playing.

Makers of the motor shown here claim it's "truly quiet," thanks to a new sound-insulating engineering principle. The result of years of research, the 5½ h.p. Sea-Horse insulates the motor from the boat through a revolutionary suspension system, eliminating noises formerly resulting when motor vibrations were amplified by the hull acting as a sounding board.

Combined with intake mufflers and underwater exhaust which further reduce noise, the new Johnson 5½ operates at a gentle purr.

Normal conversation at full throttle, completely satisfactory portable radio reception, and the gentle slap of ripples on the bow are all audible.

All in all, it's wonderful news for cottagers on American waterways, whether motor users or not.

Downward Trend

Since it is one of the main aims of the Eisenhower administration to give taxpayers a clearer picture of what's going on in Washington, government spending will be discussed often and frankly in 1954.

President Eisenhower and his advisers, who are some of the ablest financial experts in the country, are far better able to talk now than they were a year ago when they were getting ready to accept responsibility. They have found out where the fiscal bodies are buried. They have had a chance to look at federal spending from the inside out.

Contrary to the catcalls of the disgruntled promoters of creeping socialism who have been turned out into the cold and the sniffish wisecracks of the displaced spend-elect crew, men like George Humphrey and Charles Wilson have turned the spending tide.

They have been able to do in a few months what had not been tried since 1934 by their predecessors in the Roosevelt and Truman administrations.

They have convinced the vast federal bureaucracy and its hangers-on that the trend in public spending is downward, not upward. They are not within two years of balancing the budget thanks to long-term commitments which they cannot cancel and the high cost of national defense. But they have got rid of the idea that the United States has no choice but to drift on endlessly into a sea of debt which must finally engulf it.

The buying power of the dollar has quit shrinking. Savings have been made more secure. The threat of runaway inflation which hung over the country for more than a decade has been removed.

There are two questions that every administration spokesman should ask the public in 1954 every time he gets a chance:

Do you resent the absence of Korean casualty lists

Do you believe Americans must have a war boom to be prosperous?

Part of the Answer

Whenever people discuss education, one question must be answered.

Is general education a proper background for a useful life?

Part of the answer is suggested in the useful life of Dr. Robert Andrews Millikan, who died last week at the age of 85.

Dr. Millikan was a pioneer in the field of cosmic rays — one of the original thinkers of his day. He was graduated from Oberlin College in 1891 with the degree of bachelor of arts. He was given a master's degree in arts two years later by Oberlin. Two years later he was made a doctor of philosophy by Columbia University. He had a general education.

His specialized interest in physics came about almost accidentally; he was asked to teach a class in it while he was still a student at Oberlin. The subject interested him, and he went on to become a foremost authority in a subject which had been incidental to his general education.

He also was to become one of the great thinkers of his day — a man of such wide intellectual attainments that his admirers felt sure he could have had a brilliant career in any field which had struck his fancy.

Perhaps one goal in education should be to keep from knowing too much about too little too soon.

Bad Politics

In three more weeks, Congress will be back in session. The summer and autumn breathing spell which was going to give the Eisenhower administration a chance to get its feet on the ground will have changed into the hurly-burly of election-year politics.

President Eisenhower has been conferring with the committee chairmen of his party, with a view to White House-Congress relationships in 1954. These are the subject of nearly every political observation being made these days by Washington observers.

It is significant that all the observers, being close to the political scene, are inclined to look at the same thing.

They are endlessly aware that the President is at a disadvantage in his relations with the politicians because he does not have the same grasp of politics that they have, being politicians.

It could be wished in this connection that more of the observers would get away from the scene of politics and do some of their observing on the scene of everyday American living where people look upon politics at its best as a necessary evil and think of bad politics as an intolerable obstruction to good government.

A majority of them who voted in 1952 were sick to death of what they considered bad politics. They threw out of Washington what they considered to be a crowd of bad politicians.

The observers who are harping on President Eisenhower's troubles with the politicians would be doing a service to truth in reporting if they'd point out occasionally that the politicians are in trouble with President Eisenhower. The American people are sick to death of politics.

Anti-American Trend

By David Lawrence

U.S. Foreign Policy Views Not Shared by Others

Looking through the latest issue of "Foreign Affairs," the quarterly publication of the Council of Foreign Relations — an organization of prominent Americans devoted to the cause of international cooperation — one gets the impression that American foreign policy is in a terrible mess.

Surveying the world scene, it becomes obvious after reading a number of articles that the American people are not being given the truth, but only a series of unrealistic pronouncements from officialdom about the "free world," Allied unity and the United Nations.

"Foreign Affairs" as a publication expresses no opinions of its own but performs a service in giving forthright articles by authorities in other lands.

It is apparent that what is accepted as truth in America isn't so regarded elsewhere.

Thus an article by a very important person in India who remains anonymous emphasizes the point that the United States was the aggressor in Korea and charges that the American government oirginally intervened in the civil war in China by protecting Formosa.

The accusation is further made that the U.N. forces had no business crossing the 38th Parallel into North Korea and thereupon became aggressors themselves.

-:-

THE DISTINGUISHED Indian author continues:

"The question of aggression by China seemed therefore to most Asians a doubtful point. This became clear when the resolution to brand China as an aggressor was introduced at the end of January 1951.

"It is strange that, though the Chinese intervention took place in October, 1950, the United Nations waited until the end of January 1951 to discuss whether or not it was an aggression on the part of China.

"It is also significant that when the matter was put to a vote the resolution did not receive the support of India, Burma, Indonesia, and other Asian countries. The Asian countries evidently did not consider that China had committed aggression.

"Though the resolution was carried, it was obvious that no great importance was attached to the charge, for otherwise, the United Nations could not have entered into negotiations with the Sino-Korean forces, for that would have been compounding with aggression and a betrayal of the principles of the United Nations.

"An aggressor, ex hypothesis, has to be punished, but instead of doing it, the United Nations, after deliberately branding China as an aggressor has been equally deliberately engaged in negotiations with that government . .

"It may sound strange to American ears, but nonetheless it is a fact that the leaders of India and Burma, and perhaps of other South Asian countries, excluding Siam, do not feel themselves threatened by Communism.

-:-

TO READ the foregoing in the light of the hundreds of thousands of words poured out by officials of the present and preceding administrations here about "repelling aggression" in Korea and about the victories for "collective security" which cost America 140,000 casualties there it is obvious that what is being said inside America isn't shared outside.

Then there's an article by Clement Attlee, former prime minister of Great Britain, who thinks America is wrong in its relations with Red China and he, too, hints that blunders in American policy may have caused the Korean war He says:

"It may well have been that had China been given her seat in the United Nations, the Korean war might never have been started. In dealing with Asiatic countries the matter of self - respect or "face" is of great importance.

"The refusal to recognize the effective government of China affronted the self - respect of the Chinese people.'

-:-

IT IS EVEN more distressing to read the article written by Walter H. Mallory, executive director of the Council of Foreign Relations, who, after spending a year in Indonesia, says America is regarded there as a capitalistic country of selfish imperialism, and ulterior motive

He advises patience in dealing with a new country and on the whole tries to be constructive in his viewpoint.

It is startling, however, to find that after all the hue and cry about America rescuing nations from imperialism, and after the conspicuous way in which the diplomacy of the United States did help to wrest Indonesia from the Dutch empire, it now appears the United States is the villain of the world

Incidentally Mr. Mallory reminds his readers that there has never been a national election in Indonesia either before of after independence was obtained in 1949.

Naturally there are Americans who seek to establish the theory that the drop in American influence abroad has been due to Sen. McCarthy.

-:-

THAT'S A THEME, which has become an alibi for past failures by our diplomats abroad.

It is apparent that the anti-American trend began steadily to develop for a variety of other reasons long before the furore over congressional inquiries. In this connection "Foreign Affairs" has an interesting article by Henry Wriston, president of Brown University, about the different voices in America.

He tells his world - wide audience of scholars and students of foreign policy:

"Current investigations — by congressional committees — are not fundamentally different from earlier examples. Nor do they cow public opinion.

Despite all the uproar about the 'terror' created by congressional investigations, I do not know anyone with something important to say which the American people ought to hear which has been silenced by the investigative procedures; many who have nothing to say pretend that the reason they do not say something significant is because of those pressures."

Christmas in Denmark

By Richard L. Thomas

COPENHAGEN

Downtown Copenhagen at this time of year is a maze of glittering Christmas displays and bustling people completing their last minute shopping.

Christmas trees are everywhere, store displays are both elaborate and unique, and Stroget, the famous "Golden Way" of Copenhagen's shopping district, is draped with strands of fresh evergreen. During the busier periods of the day, some of the streets are actually closed to traffic so that the crowds of people may find more room to walk.

The decorations and displays began going up around the 15th of November, and since that time there has been a steady increase in activity leading up to the fervor of the last week before Christmas. In many respects, the behavior of the city is much the same as any American city of comparable size. Were it not for the Danish signs and the extremely narrow streets, one could well imagine that he were in Cleveland or Detroit.

—:—

ASIDE FROM the similarities of the commercial aspect, however, there are many Danish Christmas customs and traditions quite different from those in America.

To begin with, Santa Claus in Denmark is exactly the same in appearance and importance as in the States, but his Danish name is Julemanden. Along with the change in name, there are also some changes in his habits.

Julemanden doesn't live at the North Pole, nor even on Greenland, the Danish Arctic possession. In fact, no one is real sure where he does live! Nor does Julemanden have any reindeer to whisk him through the skies, even though Denmark is very near Lapland. He does climb down chimneys with his bundles of toys, but he leaves all his gifts under the tree and never in stockings by the fireside.

—:—

THE MOST important difference between Julemanden and our Santa Claus, however, is that Julemanden has a large staff of

Richard L. Thomas of Marion is a Fulbright scholarship student at the Foreign Graduate School, University of Copenhagen. His experiences and observations will appear in this space from time to time.

helpers called Nisser. Whereas Santa lives with Mrs. Santa and makes toys all year long, Julemanden sleeps most of the year and lets the Nisser do all the work except delivering the toys.

The Nisser are very peculiar little sprites that are undoubtedly related to leprechauns and elves. Decked out in their red-pointed hats, they live in the attics of homes where there are "good" little boys and girls. In addition to making toys, they bring the Christmas spirit into houses where they reside. But they must not be taken for granted.

For instance, if one forgets to put a bowl of rice porridge out for the Nisser on Christmas Eve, they will disappear and take Christmas with them. Such influential people as the Nisser, therefore, are not to be teased nor forgotten—they are treated with respect.

—:—

STRANGELY enough, the traditional Christmas dinner in Denmark is always on the 24th of December. In fact, most of the emphasis is placed upon Christmas Eve rather than Christmas Day. All work stops at noon on the 24th, and the holiday is begun in most households with church services taking place at approximately 5 o'clock in the afternoon. Immediately afterward comes the Christmas dinner.

Instead of turkey and plum pudding, the Danes feature rice porridge and roast goose in their Christmas feast. The porridge is the first course and there is always a single almond hidden in the rice. He who finds the almond in his portion is then awarded a prize. This is a very old custom—and a clever one at that. The Danes of the olden days apparently used the almond as an incentive to get the children to eat a lot of rice in hopes of finding the almond. Having gorged themselves with filling rice, they could then do no great damage to the goose, much of which was thus spared for later meals.

—:—

AFTER DINNER, the whole family heads for the Christmas tree where the gifts have been placed (apparently Julemanden slips down the chimney during the meal). Before the presents are distributed, the members of the family and guests join hands and dance around the Christmas tree singing Christmas hymns and songs, ending with "Hojt fra Traets Gronne Top."

The tree, by the way, is much like the traditional American tree, except that small Danish flags a prominent among the decorations, and real candles are usually used instead of electric lights.

Celebrating is not confined to Christmas Eve, however. Both the 25th and the 26th, called the Second Christmas Day, are official holidays devoted primarily to family reunions. Some of the old timers carry on with the festivities through the 27th, the Third Christmas Day, but it is no longer a recognized holiday.

—:—

OTHER interesting customs: When calling at a home during the Christmas season, it is obligatory to partake of food and drink. If one doesn't, he will take the spirit of Christmas with him when he leaves . . .If a fly comes into the house during the holidays, one must not swat it for fear of incurring bad luck . . .Danes place whole bundles of straw, often fashioned into animals, in their yards, bushes and trees so that even the birds can have a feast during the Christmas holidays, the most joyous time of the year in Denmark.

To all readers: De bedste onsker om en glaedelig jul og et godt nytaar!

Why Not a Snow Stick?

By TRUMAN TWILL

At the first sign of deep snow any more, everybody starts wondering if they'll be snowbound, they hope, they hope, they hope.

This has been common practice since the memorable blizzard a few years ago when a couple of million people who had been on the ball so long they had turned stale were snowbound for a few memorable days and enjoyed themselves so much they can hardly wait for a repetition.

As time wears on and the circumstances of that genuine emergency seem less and less likely to be repeated, a question arises:

How does a person know when he is snowbound?

There is need of a standard of measurement which will be generally acceptable. Otherwise, there might be a snowstorm some day which would cause half the population to goof off in the fond illusion of being snowbound, only to get docked for voluntary absenteeism.

Industry, trade, commerce, culture and everything else might be slowed down to a walk by an epidemic of worthlessness which would turn out to be without justification.

There could be a fiasco as embarrassing as if a million grandmothers passed away in time for the opening day of the baseball season. Hence the need for a standard of measurement.

A few rule-of-thumb measurements already exist. In rural schools, for example, the pupils become snowbound when schoolbus drivers cannot negotiate the more difficult parts of their routes. That makes it official.

In some small enterprise, an official shutdown occurs when the No. 1 man is unable to show up in time to set things in motion. But what's needed is an abolute standard.

There should be an official snow stick with marks on it at various heights to indicate Possibly Snowbound, Probably Snowbound, Officially Snowbound and Indefinitely Snowbound.

The calibrations could be worked out like the famous table for wind velocity which says it's a storm when the swinging signs stand at right angles to the ground and a gale if they break loose from their moorings.

Every household in the snow belt would have a snow stick hanging in the broom closet along side the yard stick. Whenever the question came up as to whether or not it was time to get off nervous tension and go limp in a state of blissful snowboundedness, the stick would be taken outside and thrust into the snow.

If it came up with a reading of Officially Snowbound, that would settle the question. Possibly Snowbound would constitute a thin excuse to goof off and start knitting up the raveled sleeves of care and Probably Snowbound would constitute a substantial excuse.

This department's facilities are available for snowbound research. It submits that any snow of five inches is a starting place for being snowbound, provided the measurement is made in an open spot.

Under no circumstances should the measurer pile up snow in a mound before thrusting in a snow stick. The measurer must be a person of honor or the whole theory behind an official snow stick is exploded and no one ever will have a plausible excuse for not showing up at work or dying in the attempt to get there.

Did all the lights grow on it, too?

II

Where is the deep wood and how far?
Does every bud burst as a star?
On some big hill, mom, has this stood?
Or was it made by Hollywood

III

It was a living tree, my child;
By many hands it's since been "styled";
But God gave it the grace and glory
On which to drape the Christmas story!

This is an age of investigations, but the one field where a full inquiry is urgent is being totally neglected. Towns, cities, states and the nation know the need for it.

Mothers and fathers yearn for it. Children cry for it. Truth, realism and sincerity demand it.

We refer to the street and department store Santa-Claus situation. Our kids are being made skeptics; their faith is being undermined by the sorry picture of Santa presented in the streets of the nation.

-:-

We suspect sabotage of the Kris Kringle legend and invite the appointment of a Senate Un-American Portrayal of Santa Committee:

Q. You are a department-store Santa. For how many seasons have you served in this role

A. Ever since I established myself as being wholly unsuited by shape and personality.

Q. Did you have any trouble so establishing yourself

A. No. I was tall, skinny and had a slight stoop.

Q. Have you ever worn a Santa costume that wasn't cheap, baggy, or a set of whiskers that would fool anybody?

A. To do so would violate the code of the National Committee for the Selection of Street and Store Kris Kringles.

Q. You gave your name as Oscar Pootle. Is that your real name?

A. I'm not crazy enough to play Santa the way I do and let the kids know my real name, sir.

-:-

Q. Did you ever serve as understudy to Boris Karloff

A. You are trying to establish guilt by association.

Q. Have you ever been a member of the Society to Make Santa Claus Ridiculous or the League to Kill the Jolly Old Elf Idea?

A. — refuse to answer that question, under the Fifth Amendment.

The theme song at the recent "national bake-off" in which hundreds of housewives competed for $50,000 prizes was obviously, "I GET A CAKE OUT OF YOU."

Auto driving is reaching such screwball stages that autos are colliding with buildings. Probably the buildings don't hold out their hands to indicate that they are not moving. We heard of a recent crash in which an autoist whose car had just rammed in the front of corner store, came slowly to his senses and, in the customary indignation, demanded of the storekeeper, "Where did you learn to drive"

The Christmas season this year has been darkened by the picture of the sleaziest of all human beings, the fellows who for a fast dollar, direct big charity drives and keep most of the swag for themselves. A New York State inquiry brought admissions from these queer creeps that they made a business of conducting drives for cancer victims, the blind and for suffering and underprivileged children, raising vast sums from the public by a mail appeal and keeping everything but 10 per cent! They seemed even a little proud of their business ability, believe it or not.

Young people who despair of success in writing should mark the confession of Marjorie Kinnan Rawlings, famed author of "The Yearling" and "Cross Creek" who died the other day. "I work eight hours a day at least to turn out six pages and if I get three I am satisfied," she said.

Mrs. Santa Claus

Boyle Nominates 'Woman of the Year'

By HAL BOYLE

NEW YORK (AP) — Would your wife let you out even one night a year if you spent it climbing down and up strange chimneys?

Certainly not. But Mrs. Santa Claus does—and isn't the least bit jealous of her husband. This makes her the world's most understanding wife.

So why not give a little long overdue recognition to this good gray dame and nominate her "Woman of the Year"? And how about making old Santa himself the "Man of the Year"?

It is time we make a break in tradition and give these honors to a family team. And who has better earned the award, century after century, than Mr. and Mrs. Santa Claus?

Some time they ought to share a Nobel Peace Prize, too It would be hard to name a couple who have done more for international good will.

In an era of doubt they are as old-fashioned as long underwear. but as modern as faith itself must always be. In an atom age they still go on sturdily demonstrating that no man can know happiness who tries to remain an atom unto himself.

Working as a happy team together, Mr. and Mrs. Claus must have brought delight and joy to a billion children in their time in a universal giveaway program that crosses all countries and is heedless of all politics. And they show no signs of retiring on an old age pension or complaining, "children are getting so bad the whole thing is no longer worth while."

So far as I know neither Santa nor his wife believes there is such a thing as a bad child. What other childless couple do you know who have an attitude like that?

If history records where Santa found his bride, the fact has escaped me. But if there are any more like her, I know a few bachelors who certainly would be glad to propose to one.

Mrs. Claus deserves to be named "Woman of the Year" if only because she has proved a good gal can win fame in the career of house-wife, even though she does her housekeeping in a place as remote as the North Pole.

It is well known by the elves that Mrs. Claus actually supervises the North Pole toy-making operations during most of the year. But does she insist on a seat by Santa's side, when he makes his annual Christmas Eve sleigh ride around the globe? Not Mrs Claus. She lets her old man get all the applause, because she believes a woman's place is in the home on Christmas Eve, anyway.

"Besides," she has placidly confided to friends, "I'm a backseat driver—and with all that pack of toys in the back seat, there really isn't room for me. And besides that, it is just common sense to let a husband out one night a year by himself, and no questions asked.

"You ought to see how glad Mr. Claus is to come creeping home on Christmas morning."

Between them Mr. and Mrs. Claus help keep alive a force more explosive than a million hydrogen bombs—the timeless power of human love and understanding in a yearning world eternally lonely for these twin vitamins of the human soul.

Nominations closed, All in favor say "aye!" Those opposed, say—but how could anybody oppose them?

We give you the "Man and Woman of the Year"—Santa and His Lady!

Communists Find Chinese Prisoner Has Mind Made Up

PANMUNJOM (AP) — A smiling Chinese prisoner strolled into an explanation tent today, eyed the Communist Chinese explainers and bowed politely. He took his seat and listened quietly.

Communist interviewers talked on for more than 20 minutes. Then the prisoner broke in.

"Gentlemen, I understand what you said, but I can tell you I have already lost confidence in the Red regime," he told them. "I don't like to blame you. I know that you are employes. I just want to go to Taiwan (Formosa)."

"You know how large Taiwan is?" a Red asked "It is only a tiny island."

"Yes," the prisoner replied. "I know that. It is tiny. But have you ever seen the sun? It is also tiny as we look at it from here, but the sun, anyhow, shines all around the world and that is Taiwan today. It shines also all over the mainland—China."

Approximately 40 members of the Marion congregation of Jehovah's Witnesses will be among an expected 1,000 delegates from 20 cities of Ohio attending a circuit convention of the Watchtower Society Christmas Day through Sunday at Troy. The local group will be headed by B. Orville Baker.

This convention is the semi-annual assembly of Jehovah's Witnesses in this area which includes Sandusky, Defiance, Lima, Bellefontaine and other towns of the section where the congregations are located. Its purpose is "to examine Bible prophecies in the light of present-day world events in order to determine the reason and remedy for the distressing conditions that exist throughout the world." Highlight of the assembly will be a public lecture on "What Is Your Destiny" by a leader from Brooklyn, N. Y. on Sunday at 3 p.m. in the Troy High School auditorium where the sessions will be held.

PASTOR DIES

RICHMOND, Ind. (AP) — The Rev. Fred E. Smith, 81, a former pastor of Quaker churches in Ohio, Michigan and Indiana, died yesterday.

Many See Scene Of Nativity Given At Trinity Church

Several hundred Marion shoppers took time Monday night to view the first presentation of nightly pre-Christmas Scenes of the Nativity" at Trinity Baptist Church on S. Main St. The "picture" of the prophets who foretold the coming of Christ to the world was arranged in the front entranceway of the church with appropriate background, costumes and scrolls.

Taking part were Kenneth Albert, Starling Somerlot, and Floyd VanMeter during the first period and taking their places for the second period were Delmar Brewer, Fred Price and Richard Mull.

Tonight's phase of the Christmas narrative will be "The Inn at Bethlehem" with Mr. and Mrs. William Myers, Mr. and Mrs. John Cotrell, Mr. and Mrs. D. H. Brewer, Miss Donna Wymer, David McCreight, Roger (Buddy) Wingett and Thomas Barber. This will depict the Mother of the Christ Child and her husband, Mary and Joseph, and the "inn keeper and his wife and son," and the live animals used in the scenes will include a donkey and shepherd dog.

Curious Cat Raises Hob With Butte Power Line

BUTTE, Mont. (AP)—An inquisitive cat stepped on a high-voltage secondary bus bar at a Montana Power Co. substation here yesterday.

Four banks of transformers that reduce electrical pressure were short-circuited and an oil switch caught fire. Parts of Butte were without electricity for an hour and a half. The cat was killed.

PROBER PREPARES REPORT

COLUMBUS, Ohio (AP)—State Rep. Samuel L. Devine (R—Columbus) says a report his Ohio Un-American Activities Commission is preparing for the Legislature will show the Communist party "still is operating in this state." The 12-man commission meets today to work on the report, which is due Jan. 31 when the commission will be replaced by a special assistant attorney general with power to investigate subversive activities and refer them to local grand juries.

Police Report Five Accidents

No Injuries Occur In Traffic Collisions

Only five minor accidents were reported by city police this morning.

The Marion post of the state highway patrol and the sheriff's office reported no accidents in the county.

Two cars received minor damage in an accident on the 300 block of S. State St. at 2:44 p.m. yesterday. A car driven by Robert Lewis Carwile, 17, of 552 E. Mark St. was backing up when it struck a parked car owned by Merwyn Burbaugh of near Morral.

A car driven by Robet A. Wollett, 23, of 582 Herman St., was extensively damaged on the front end in an accident at the intersection of E. Center St. and Johns St. at 8:50 a.m. yesterday. Wollett's car collided with a truck driven by Lyle J. Kitteridge, 18, of 666½ E. Center St. The truck received only minor damage on the rear end.

A car driven by George Thomas Criswell, 19, of near Marion, was damaged slightly on the left side when it was struck by a truck driven by Leonard Dalton Sneed, 28, of Prospect. There was no damage to the truck. The accident occurred at 2:43 p.m. yesterday at the intersection of N. Main and George Sts. The car was heading north on N. Main St. and the truck east on George St.

Cars driven by Robert E. Smith, 18, of 191 Latourette St., and William H. Ryan, 56, of 365 E. Center St., received minor damage in an accident on Bennett St. at Waterloo St. at 10:19 a.m. yesterday.

Minor damage to both vehicles resulted in an accident on Center St. at Davids St. at 8:40 p.m. yesterday. Involved were a car driven by Harold W. Hirneise, of 380 Park St., and a truck driven by Emiel Robert Boliantz, 38, of Mansfield.

DUNKIRK DRIVER ARRESTED

One traffic arrest was reported today by state patrolmen from the Marion post. Jess W. Hipsher, 26, of Dunkirk was fined $15 and costs in Municipal Court after he was arrested Monday morning at 9:35. He was charged with failing to obey a stop sign on State Route 98.

NLRB Ruling Hits Recruiting On Plant Time

2-Year-Old Decision Reversed in National Labor Board Action

WASHINGTON (AP)—The government has stopped compelling employers to give unions equal time during plant working hours to solicit members.

The rule in effect for two years was reversed late yesterday by the National Labor Relations Board (NLRB) in a 3-1 decision saying that company premises are the natural forum for employer views and the union hall is the union's.

Not Statutory Right

"We reject the idea that the union has a statutory right to assemble and make campaign speeches to employes on the employer's premises and at the employer's expense," the NLRB majority said in its policy reversal.

At the same time the NLRB established a new rule. It said that henceforth neither the company nor union would be allowed to address workers on company premises during working hours for 24 hours before an NLRB election to choose a collective bargaining representative.

Member Abe Murdock, former Democratic senator from Utah and a Truman administration appointee to the NLRB, vigorously dissented from both rulings. Two of the boards present four members—there is one vacancy—are appointees of President Eisenhower.

Neutrality Not Intent

Murdocks dissent said the purpose of the Taft-Hartley and previous federal labor laws was to encourage collective bargaining rather than achieve employer-union "neutrality."

"Practically every employer speech on company time and property is designed to perpetrate individual collective bargaining and to discourage collective (union) bargaining," Murdock said.

He said unions will be at an organizing disadvantage because outside contacts and union meetings are not as effective in preaching unionism as right in the plant to a "captive audience."

Participating in the majority decision were Chairman Guy Farmer and member Philip Ray Rodgers, two Eisenhower appointees, and member Ivar Peterson, a Truman appointee.

Blow at Unions

Arthur Goldberg, CIO general counsel, said in an interview the NLRB policy reversal "seems to be a very bad decision and a very antiunion decision."

"We agree," the majority decision said, "that both parties to a labor dispute have equal right to disseminate their point of view, but our disagreement stems from the fact that we do not think that one party must be so strangely openhearted as to underwrite the campaign of the other."

Making an employer give a union company time and facility for a prounion speech, the majority said, was about the same as "admitting an employer to the union hall for the purpose of making an antiunion speech."

Wheat Crop Forecast

WASHINGTON (AP)—The Agriculture Department yesterday estimated Ohio's total wheat production next year at 40,282,000 bushels.

The department said 1,821,000 acres of winter wheat were seeded in Ohio, 76 per cent of the seedings for this year's crop. Total U. S. wheat production for next year was estimated at 750,140,000 bushels, which is 127,371,000 less than this year's crop.

Election

(Continued from Page 1)

in Manhattan and New Jersey began voting on their choice of unions. The election, conducted by the National Labor Relations Board will run through tomorrow. Announcement of results is expected early Thursday.

May Follow Suit

It is expected that the other 40,000 dock workers on the East Coast, all veteran ILA members, will follow the lead of the Port of New York group.

The balloting brought to a climax the rivalry between the ILA and the AFL, which set up the new ILA-AFL a few months ago in an attempt to break the ILA'S hold on East Coast longshoremen. The AFL had previously ousted the ILA for failure to purge itself of racketeering elements.

ILA President William V. Bradley, who yesterday won public support from United Mine Workers President Lewis beamed with confidence last night, predicting a 10-1 victory for his group. Bradley, a tugboat captain, has said he knows of no racketeering in the ILA.

Winds Up Campaign

AFL President George Meany wound up his organization's campaign last night with a radio-television plea to pier hands "to cast a ballot for a decent union run for the benefit of longshoremen." The AFL has forecast a 2-1 victory.

Both sides were talking of plans to resume wage-contract talks with the New York Shipping Assn. in the event of victory. The ILA said it was ready to start negotiations Thursday; the AFL indicated it could start talks Saturday.

A five-day ILA strike against shipping firms last October was halted by a Taft-Hartley injunction. Contract talks were never resumed as the rival unions sought to win over the longshoremen. The injunction expires Christmas Eve, but officials of both unions predicted there would be no further walkout.

Lewis' long-rumored support of the ILA was publicly confirmed in Washington yesterday after the 73-year-old mine chief met with Bradley. The ILA president later told newsmen, "Our financial troubles are over," and added that he would favor affiliation with the UMW if his union wins the NLRB election. It has been reported that Lewis gave the ILA at least $50,000 and offered more if necessary in the fight with the AFL.

Bartenders Report On Hangover Cures

BUFFALO, N. Y. (UP)—With the holiday season at hand, six bartenders submitted as many ideas on what to do for hangovers.

"I prefer a real tart whiskey sour with a dash of Jamaica rum chilled well and served in a four-ounce glass," said Mike Palermo.

"Take one big glass of cold tomato juice and follow it with a cup of strong black coffee," recommended Libby J. Gullo.

"A good night's sleep," said Thomas A. Cairn. "If you get a good night's sleep you won't be bothered."

"Take a little of the dog that bit you. But that doesn't cure everybody. Sometimes you just have to live with it. My favorites are ice cream or buttermilk," Ernest G. Cohn suggested.

"Don't drink any more," said Edward J. Thueurer, "Lay off it until you are better."

"My own remedy is a bromo," said Tony Lapi. "I think it is more effective than taking a shot."

Escape

(Continued from Page 1)

ter 10 p.m., all available men and cars of the Marion police department, sheriff's office, and state highway patrol joined in an effort to comb the area for the missing youths and automobile.

—:—

HALE, CONFINED to the school on an auto theft charge from Butler County, is described as being 5 feet, 8 inches tall, weighing 136 pounds, and having brown hair and brown eyes, with fair complexion. It is thought he might be wearing glasses. His home address is London, Ky., and he has a wife residing in Louisville, Ky.

He was sent to the institution Nov. 17, 1952, on transfer from the Ohio State Reformatory. He was sentenced one to 20 years on the auto theft charge on Sept. 29, 1952, from Butler County. School officials reported he would have been eligible for parole hearing in August of 1954.

—:—

CHANEY, SERVING a one to 15 year sentence given him June 24, 1952 on burglary and grand larceny charges from Fulton County, is 6 feet tall, weighs 161 pounds, has brown hair and blue eyes, and a ruddy complexion. His parental home is in St. Louis, Mo. School officials said he had been granted a parole on Nov. 5 but had not been released due to placement difficulties.

It is thought that both boys were wearing standard blue denim overalls trimmed with red stripes down the trousers legs, and blue jackets. School officials pointed out, however, that they could have stolen clothes belonging to construction workers at the training school.

—:—

BOTH BOYS had been seen at approximately 9 p.m. Tracks led from two separate dormitories, where they slept, to a south fence over which they climbed in making their escape. The tracks then led to a parking lot on school grounds where the Ford automobile was parked.

Apparently the boys headed south into Marion, where a school jacket, believe to have been worn by one of them, was found by seachers on Jefferson St.

The car is a light blue 1949 Ford tudor, bearing the license number 1135-U.

—:—

HALE HAD a previous record of a conviction on a housebreaking charge in Kentucky in 1950, on which he had been given a five-year probationary term. He had been working in the office at the school.

Chaney, who had no previous convictions, had been working with a general utility crew at the school.

Escape of the two youths brought the school population down to 71 today, Green said.

—:—

THE ESCAPE is the first from the school in nearly a year. On Jan. 23 and Jan. 24 two youths were successful in fleeing, one climbing the fence and the other crashing out in a fire truck, but both were apprehended within a month. One was picked up in Cincinnati, and the other in Virginia.

who did not face interviewers.

At the same time, the Reds went ahead with face-to-face explanations. They won back 23 of 242 Chinese prisoners today. And they asked for 250 more Chinese tomorrow, the final day.

Texts for the Allied broadcasts were approved by the Neutral Nations Repatriation Commission and a spokesman said the commission "will make the facilities available."

Up to Prisoners

He noted, however, that it is up to the prisoners "to listen or not to listen."

And Lt. Gen K. S. Thimayya, Indian chairman of the commission, predicted that the prisoners probably will "all join together and go to the other end of the compound."

Hope for interviews with the Americans all but vanished when the repatriation commission ruled that only one neutral observer team will be available tomorrow for Allied talks. The other teams will be busy watching Communist explanation sessions.

A U.N spokesman said it would be impossible to conduct interviews unless five sites were available, but observers pointed out that if the Americans should offer to attend, this decision could be modified.

Servicemen of County Arriving in U.S. Today

Marion and Marion County servicemen are included among 1,446 Army and 1,364 Marine personnel from Korea who are scheduled to arrive at San Francisco today aboard the transport Gen. R. L. Howze, The Associated Press reported.

Army personnel are Sgt. Robert E. Garey of 139 Franconia Ave., Pfc. Robert L. Greeg of near Marion, and Sgt. Mayhon Huckaba of 744 Cheney Ave. Marines are S-Sgt. John A. Hughes of LaRue and Sgt. James W. Seiter of Indiana Extension.

Also among the group arriving today is Cpl. Richard E. Baries of Carey.

Atomic

(Continued from Page 1)

President's proposal," as evidenced by outspoken criticism in the Soviet note of some of Eisenhower's speech.

The critical comments, actually some 90 per cent of Russia's 3,000-word reply, are the factor causing the State Department to move slowly in deciding on the next step.

Less Optimism

After careful study of Russia's response, some ranking diplomats were a little less optimistic than they had been at first glance about prospects for negotiations.

For example, some officials noted the Russians at least 20 times vigorously restated their long-standing demand for pledges of an outright ban of atomic and hydrogen weapons as part of Eisenhower's plan.

"It is necessary that not some part but the whole mass of atomic material be directed completely to peaceful aims," the Soviet note said at one point.

And again it said:

"As for the Soviet Union its position is quite clear. It consists in turning the great discovery of man's reason, not against civilization, but for civilization's all-sided progress, not for mass destruction of peoples but for peaceful needs, for the unbounded rise in the welfare of the peoples."

Objective Bypassed

The President's U.N. speech, Moscow contended, bypassed this objective. The note said acceptance of the President's plan "would serve to lessen the vigilance of the peoples regarding the problems of atomic weapons but would not facilitate the lessening of the real threat of atomic war."

The Russian reply also repeatedly noted Eisenhower's proposal would use "only some small portion" of uranium and fissionable materials for peacetime use while the atomic race would continue without pledges against atomic attack.

American officials who deal with Russia described Moscow's latest note as a skillfully written message. They noted that it reflected no basic change in Russia's seven-year-old atomic policy, except that it proclaimed a readiness to join in confidential talks about Eisenhower's proposal.

Hunt Booby Trap

Until top officials have an opportunity to determine how these talks would affect the scheduled foreign ministers' meeting with Russia at Berlin, the tendency was to study the over-all Russian reply carefully for hidden booby traps.

The Russian note strongly indicated a willingness to take part in a session on Germany, but did not accept the Jan. 4 date the West suggested.

Dulles, in his formal comment issued a few hours after Moscow's note was sent to the State Department, made it clear his next move may be secret.

"It has long been evident," he said, "and the tone of the Soviet response makes it even clearer, that little can be achieved by the continuance of public debate."

At United Nations headquarters in New York, Western and neutral diplomats welcomed the Russian reply, but said she had not fully shown her hand. Henry Cabot Lodge Jr., the chief U.S. delegate, commented: "Encouraging — if true."

Coffee Price Up Again

NEW YORK (AP) — Coffee prices were boosted by nine roasters yesterday as the cost of green coffee soared to a record high.

Increases of 1 to 3 cents a pound were made in wholesale coffee prices by roasters in several sections of the country. The Great Atlantic & Pacific Tea Co. hiked its retail prices on its own brands by a cent a pound.

The wholesale boosts may not be felt at the retail level for as much as a month.

Late Discovery Brings Spurt in Oil Industries

LINDEN, N. J. (UP)—Laboratory research which revises the popular theory of oil formation soon may be put to use in tapping new fields of the "black gold."

Chemists of Standard Oil Development Co. have run tests showing that oil is found in artificial lakes only 20 years old.

Heretofore, the general belief was that oil took millions of years to form under great heat and pressure after organic matter—such as dead fish or trees—was deposited with sediment.

The new discovery does not mean you can drill a hole in any lake and come up with a producing well. "Youthful" oil is much too highly dispersed to have any commercial value.

But the tests have a very practical use for oil companies which spend thousands of dollars on every "wildcat" well in the constant, world-wide hunt for petroleum.

"There is a chance that commercial production exists in more recent formations of the earth than had been considered possible," says Dr. Paul V. Smith, organic chemist heading the research project for the affiliate of Standard Oil Co. (New Jersey).

"The more geologists know about the formation of oil," Smith explained, "the better they will be able to find it."

Exploratory crews may have passed up oil-bearing strata in the past simply because they were not considered "old enough" in geologic terms.

Oil usually is found in deposits ranging in age from 10,000,000 years to more than 300,000,000 years. It goes into porous formations like sand, limestone and fractured shale. These formations, pocketed in the ground, are found in marine environments.

Land thrusting up from the sea bottoms provides great oil fields hundreds of miles inland and thousands of feet deep.

Smith thinks that gasoline—as well as hundreds of other crude oil products —often starts out as plankton, a tiny marine organism, and other sea life nestled in sediment.

The bulk of crude oil consists of hydrocarbon molecules and enough of these molecules packed together under the right conditions make an oil reservoir.

Oil even exists in living organisms, Smith and his associates have found. Analyzing certain species of fresh fish by a process called "chromatography," they conducted tests which showed from 30 to 50 parts per 1,000,000 of hydrocarbons.

WINTER ARRIVES IN DENVER. There was no doubt about the offiical arrival of winter in the mile-high city of Denver, Colo. Christmas shoppers braved blowing snow in the downtown district. This scene is at 15th and California Sts.

led the poll throughout most of the five days of inconclusive voting, lost ground last night when the small Social and Democratic Resistance party abstained on the 10th ballot to protest continuation of the stalemate.

Laniel Loses Ground

The wealthy Premier, backed by Parliament's conservatives, received 392 votes. He had 413 on the ninth ballot earlier in the day. Because of abstentions, he was 42 votes short of a majority on each round.

Socialist Marcel Naegelen, the other avowed candidate, got 358 on the 10th ballot and 365 on the ninth. Naegelen, former governor general of Algeria, was supported by the leftists, including the large Communist bloc.

Although both candidates remained in the race, Laniel hinted in a statement he would withdraw if a middle-of-the-road leader capable of rallying a strong majority was selected as a compromise entry.

Herriot, a Radical Socialist, announced several weeks ago that "I am not and never can be a candidate." The 81-year-old statesman is suffering from phlebitis so severe he walks with difficulty. He has not attended the electoral congress, over which he normally would have presided as president (speaker) of the National Assembly.

Fishing Boat Overdue

ASHTABULA, Ohio (AP) — Coast Guard craft searched Lake Erie today for a 36-foot fishing boat overdue with three men aboard.

The boat, the Richard R, was to have docked in Conneaut yesterday afternoon. Aboard were Richard and Frank Regale and William Russell, all of Erie, Pa.

The Coast Guard said it had not determined whether the boat left Erie or Conneaut.

NEW YORK (AP)—Paul C. Smith, former editor and general manager of the San Francisco Chronicle, was named today president of the Crowell-Collier Publishing Co.

The announcement, made following the monthly directors' meeting, also said Clarence E. Stouch, president of the firm for the past two years, has been named chairman of the board.

But the State Department said today he has received no reply—which could mean the Soviets are puzzled over just how to handle his inquiries, made last Nov. 2 and Nov. 25.

Moscow has also been asked to intercede with Communist China in the cases of Americans detained there. But the Russians shrug off such requests, saying it's an affair strictly between China and the United States.

The United States cannot deal directly with Peiping since it has never recognized the Communist regime. That is why Russia, other countries and the United Nations are sought as intermediaries.

Red Blue Print

By George Sokolsky

The crucial problem that now faces nearly every country is how not to become involved in a fighting war. The United States and Soviet Russia face each other as enemies now engaged in minor scrapes which might generate a third World War. Great Britain and France cannot escape involvement in such a war because France would be speedily invaded and Great Britain would be bomb as an air base for NATO forces and on her own account.

SOKOLSKY

Japan is a prime target for Soviet imperialism. Japan is now to be rearmed and remilitarized.

The liberal elements of Japan would have preferred neutralization because they have had their great war, for which they had been planning since 1868, and they have been defeated. They know that war does not pay.

-:-

NEVERTHELESS, the forces of history are concentrating on the remilitarization of Japan, which contains this element of danger: Should the revived Japanese militarists ever find it to their interest to combine with Communist China, the peril to the entire world would be beyond imagination. Such a combination is not impossible because each side would assume that it is using the other.

Communist China must expand southward in order to include all peoples influenced by the Sinic civilization within its orbit. Its danger is the same as Soviet Russia's, namely, the cost of maintaining a defense against a constant battery on its periphery.

The farther out it can move its periphery, the lesser possibility there would be of an attack on China itself.

-:-

THEREFORE, Communist China will seek in the course of the next several years to take Indochina, Malaya, Burma, Napal, Assam and Bhutaan This is the farthest extent that the Sinic world has ever known.

India fears Pakistan for several reasons.

First of all, Pakistan can be developed economically more effectively than India

Secondly, Pakistan lies in direct geographical relationship with the whole Moslem world, which is on the upgrade.

Thirdly, the United States plans to arm Pakistan, which means a strong military power in the heart of Asia which can serve not only as a defense against Russia but also against India.

India is fearful of the arming of Pakistan but can do nothing about it, having alienated public opinion in the United States.

-:-

THE POWERFUL Moslem states in the middle of the world are more united than they have been for many centuries.

With the exception of Turkey, which moves alone, most of the Moslem countries are less antagonistic to Great Britain than appears on the surface.

They fear the social and religious concepts of Soviet Russia. They can become an effective military force against Russia.

The peril is that such a force would take on so intense a nationalism that it could be used against the West as well.

Islam hopes to develop into the third force in the world, lying as a buffer between East and West, independent of both and encroaching upon the interests of both.

-:-

HERE, INDEED, is an area that includes the whole of North Africa and runs from the Mediterranean to the Pacific in Asia, which could develop such strength as to alter all the present currents of history.

The Mediterranean cannot find peace, either on its northern or southern bank.

Turkey and Greece know the value of cooperation with the United States, but Egypt seeks an independence from Great Britain and a leadership in the Moslem world which produces a ferment in this entire area.

The North African nations and tribes seek freedom from European domination and the Negro tribes south of them hope to reclaim control of their national existence.

Africa is the most nationalistic of continents at this particular moment in history.

-:-

SUCH NATIONALISM affects not only Great Britain and the Union of South Africa but also Spain and France

Italy faces Yugoslavia for peace or war, depending upon pressure from Moscow and Washington upon both countries. Each of these nations would prefer to be free of both Russian and American influence.

Tito of Yugoslavia labors at the formation of a Balkan federation which could make him a primary power and weaken Russia. Thus far, his success in this direction has been slight, only Turkey and Greece joining with him.

Thus, we come to Christmas of 1953, and continue to wonder when peace may come to a world that yearns for peace

Prospect Churches Plan Christmas Eve Service

Congregations and pastors of three Prospect churches will join for the union Christmas Eve service in the Methodist Church there Thursday at 10:40 o'clock with the Prospect High School chorus taking part.

Rev. E. T. Henzel of the Evangelical and Reformed Church will be in charge, and Rev. Billy Evans of the Baptist Church and Rev. L. L. Young of the host church will give meditations. The choir of the Methodist Church, directed by Charles Collmen, will present "The Christmas Story," Dunlap, "For Unto Us a Child Is Born," Handel, and "Hallelujah," Lorenz and three carols of French, Polish and Austrian origin. Numbers by the school chorus will be "No Candle Was There and No Fire," Lehman, "Jesus, Jesus, Rest Your Head," Niles, and "Carol of the Bells," Leontovich, directed by Mrs. Opal Durnell.

SIX HELD TO JURY

LANCASTER, Ohio (AP) — Six former employes of North American Aviation, Inc., were bound over to the Fairfield County grand jury yesterday on charges of malicious property destruction stemming from the bombing of property belonging to non-striking North American employes during the recent eight-week walkout. The six are Henry Woltz, 23, and Daniel L. Mason, 31, of Lancaster, and Robert K. Weed, 31, Charles E. Moore, 30, James Richey, 29, and Robert White, 27, all of Columbus.

Short Memory

By Victor Riesel

This will be a Merry Christmas for an actor named Lee J. Cobb. He's working in a picture. All about the rackets on the waterfront and, by some coincidence, called "Water front," directed by Elia Kazan. When the gala premier is held and Kazan and his star, Lee Cobb, are hailed for getting off a terrific, super - collossal racket - busting movie, only one thing will be missing.

RIESEL

That will be the band of GIs who've been killed and maimed in Korea by the sovietized Chinese sent in by an enemy government once aided by an organization to which Lee J. Cobb lent his name as sponsor, nor was that organization publicly denounced (or privately either to my knowledge) when I asked Cobb through this column to quit the China Welfare Appeal, Inc., which was running a "Friendship Cargo For China (Red China)" after the beginning of the Korean war.

-:-

LEE COBB, who also sponsored the sovieteering American Peace Mobilization when it was trying to cripple our aid to the anti-Nazi Allies, is a star. It's Christmas time, and we all should be forgiving. But he's working, while many anti - Communist film people are not.

So the old club sticks together. The next time these glamorous movie people who are giving us this film about longshoremen gather, they might find the time to say something publicly about the greatness of this country, which doesn't blacklist, which doesn't kill civil liberties, which doesn't hate for long, and in which anti-Communists don't work while the old friends of sovieteers do.

Just a word about all this while we're all busy forgiving everybody. . .

-:-

LET NOT WORD of recessions depress you, for there is word of prosperity from a very well-informed source, the hardheaded construction trades unions. They say that new building expected in 1954 will reach some 34 billion dollars or slightly less than two per cent off this past record year. That means there'll be only 75 million dollars less construction — which won't affect the national economy at all. . .

The Internal Revenue Bureau racket squad is reportedly looking into a score of labor leaders who have taken fully outfitted homes from their unions and neglected to report them on their income taxes, although house and furnishings (and the luxurious gardens, too) of some ran up to $50,000 for each "gift". . .

-:-

JIMMY PETRILLO may shut down the nation's night clubs early next year by prohibiting his musicians from playing for members of the tiny AFL American Guild of Variety Artists.

Seems that the AGVA has been insisting that any horn blower or fiddler who also entertains or acts as master of ceremonies should join the vaudevillians union, too, since that deprives some of their people of jobs.

Jimmy, somewhat petulantly, is insisting that one union for anybody is enough — his union, of course. So he has ordered his bands in Boston and Montreal not to play for AFL vaudevillians — and that may soon spread across the land.

Jimmy's also feuding with the record industry and the American Federation of Radio and Television Artists — and if he boycotts them, bang goes national radio and TV for a while."

-:-

QUIETLY, DAVE BECK has built his Teamsters Union into the world's largest labor outfit, in one year. He is now paying the AFL per capita dues on 1,435,000 members. The brotherhood has 31 million dollars invested around the country, some of it in big corporations with which the union does business. When Beck took office, he hit the ceiling when he found that the union had $9,500,000 lying around collecting no interest in its Indianapolis checking account.

Beck hopes to spend 5 million this year hiking his union up to 2,000,000 members. . .

The next series of congressional probes will tear the lid off the theft and mulcting of at least 10 million dollars by crooked union chiefs from scores of welfare funds. Republican House labor chief Sam McConnell, now is planning laws to regulate these labor welfare funds.

Incidentally, the probe will show why some of these labor officials on the lower levels gave up wage increase demands, just so they could get a welfare program going.

-:-

IT SHOULD be pointed out that there are hundreds of millions of dollars in clean welfare programs. However, these will undoubtedly be hurt by the publicity about the crooked ones. But no one can say there was not ample warning that the bad would hurt the good. . .

Ike's administration is not completely ignoring the nation's labor chiefs during the formulation of basic policy. Recently, AFL leader George Meany was asked to an extremely private conference with Secretary of the Treasury George Humphrey, supposedly the White House's most conservative cabinet member.

Mr. Humphrey asked for Mr. Meany's views on taxation — and then tried to get the labor leader to back up Ike's plans for a general 4 per cent manufacturers' goods excise tax.

Meany refused, but they parted good friends — and Mr. Humphrey isn't quite as enthusiastic about the tax as he was. . .

-:-

BACKSTAGE in the White House a new feud is brewing between two wings of the Republican party.

Ike's Labor Secretary Jim Mitchell is saying, in effect: "There is no crisis in labor relations; there is no need for precipitate action" on the Taft-Hartley law.

Meanwhile, others there are pushing for tougher labor laws. They speak for a group of businessmen who are setting up a new organization to publicize what they charge are union abuses and to demand laws to curb them.

This group, soon to make its public debut, is the Employers Labor Relations Committee, headed by Reuben Robertson, of the Champion Paper Co., and Ralph J. Cordiner, president of General Electric. This fight will make headlines in '54.

Superior Sex

By Laura Hobson

You always get a funny feeling of pleasure and recognition when you see the name of a friend in the paper, and believe it or not, I just got it from glancing at a scientific chart of medical statistics, and at the story that went along with it. The chart was from a booklet with the eight - pound title of "Differences in The Rate and trend of Mortality for Different Age and Sex Groups in Different Eras," and if you can imagine a less likely place to get the funny feeling of pleasure and recognition, kindly name it.

HOBSON

The chart not only showed the facts about women living longer than men in each decade of the life span, but also how those facts have changed in each of the six decades since 1890.

-:-

THE BOOKLET explained how medical progress in the last sixty years not only has cut the death rate among the succeeding younger generations of Americans, but also that 'throughout the period, a significant and constant finding is the higher survival rate of females of all ages."

Which is why the U.S. now has about three times as many widows as widowers, 7,500,000 of one and only 2,500,000 of the other.

The author of the booklet speaks rather well, if you want a literary review tossed in here of this "mass migration acoss the boundaries of age," and goes on to some discussion of other matters in the new science of geriatrics or gerontology — both of which deal with the problems of growing older or just plain old.

That's where I recognized the name.

-:-

THE AUTHOR turns out to be Dr. William Hall Lewis Jr., whose delightful wife, Dorothy Northrop Lewis, used to write fashion advertising with me way back at a time when the word gerontology was definitely not in our vocabulary.

"I'll interview them for the column," I thought, and though we'd been out of touch for a long time, I promptly reached for the phone book. Dr. Lewis was out, and since he's connected with Doctors' Hospital and Memorial Hospital too, that wasn't so surprising.

But the doctor's wife was there and after a rapid-fire exchange of "hi" and "how old are your kids now?" and "we've got to get together right away," I told her this was in reality a press interview about her husband's booklet and chart.

-:-

LIKE ALL good wives of good doctors, Mrs. Lewis said, "you'd better talk to Bill about anything medical," and clammed up.

Which is more than I did. "But look," I said, "here's Bill, just a shade past fifty, all loaded up with statistics about husbands dying earlier than their wives."

"It makes real cheery shop talk," she volunteered, "around the house."

"Do you tell him to knock it off, or just sit there and gloom?"

"If you're a doctor's wife," she said calmly, "you sure learn not to take anything medical in a personal way."

Goodrich Factory Adds Radiator Hose to Products

New Equipment in Place, 36 Added to Work Force at Plant

Manufacture of a new product—curved radiator hose used in American automobiles—has been started at the B. F. Goodrich plant at Green Camp.

The equipment for its manufacture cost some $250,000 and is designed for straight line, mechanized production, R. H. VanSickle, plant manager, reported.

—:—

IN THIS TYPE of production, raw materials enter the plant at one end, the manufacturing process takes place in a steady, even flow, and the finished product comes out ready for distribution at the other end of the line.

The manufacturing process is conducted without extra hauling and lifting of component parts, as opposed to other manufacturing methods in which the parts are made in one section, then moved to an assembly line where they are put together.

The new product has resulted in an increase of about 34 employes to the factory staff. Another half-dozen will be employed when installation of the new equipment is completed. Production is on a 24-hour-a-day basis.

—:—

ALL WORK ON the new product is mechanized as much as possible. Most hand lifting and pushing is eliminated by the use of electric cranes, elevators and carts

Both top and bottom sections of radiator hose are made in the new section.

Shipments of rubber are made at one door of the plant, and the process continues straight through in sequence until the finished product is ready for shipment at another door.

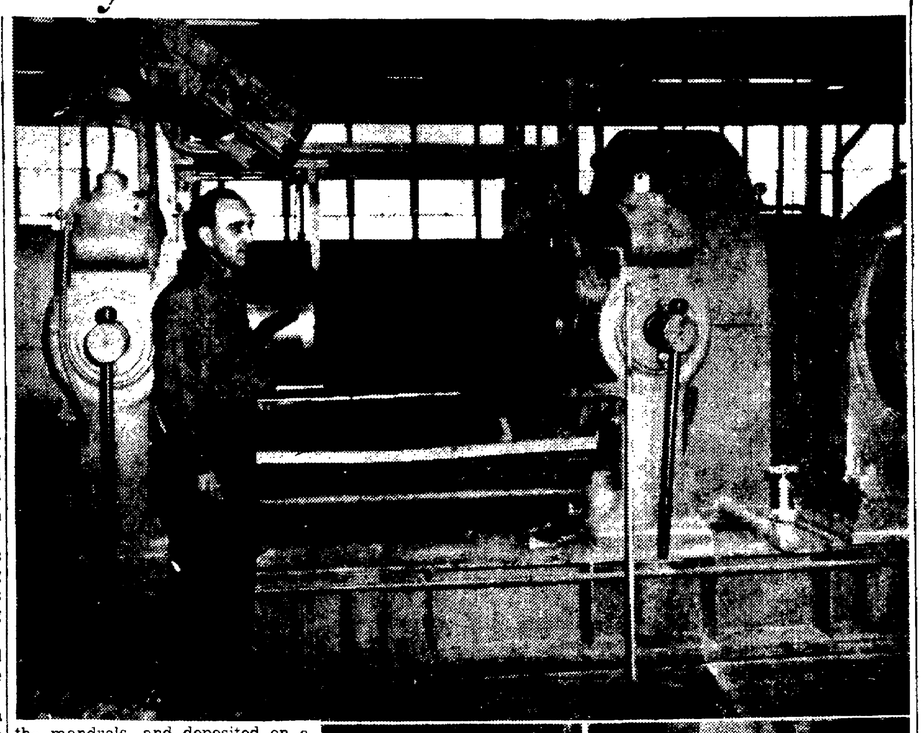
In the process, rubber tubing is placed on steelmandrels, or shaping bars, designed to produce a certain curve in the hose. The rubber hose sections are then vulcanized automatically, taken off the mandrels, and deposited on a conveyor which takes them to a loading area, where the product is inspected and boxed for shipment.

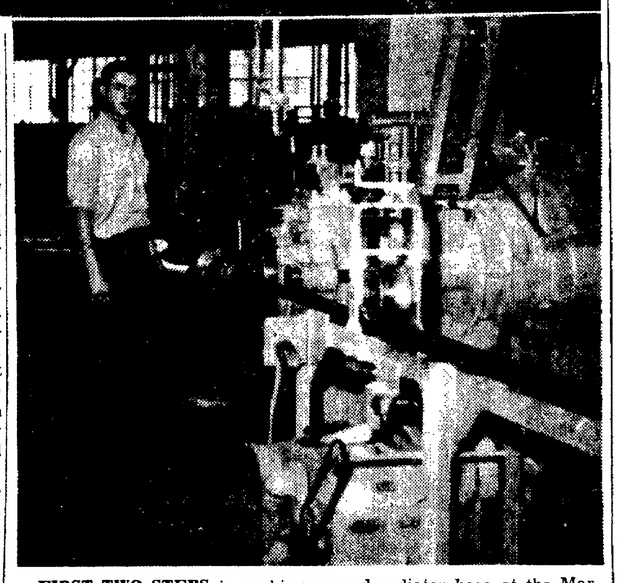
—:—

WHEN IT FIRST arrives, the raw rubber is placed in a warm-up mill which makes it pliable. From there, a constant stream of runner runs into a tubing machine, where it is laminated with cloth lining and formed into a tubular shape.

Then it is sent through another process, cut into various lengths, and placed on the mandrels, vulcanized, and prepared for shipping.

The Marion plant, which cost two and one-half million dollars to build, is equipped with modern machinery to make almost any type of rubber hose. Merchanized straight-line production systems are incorporated in the entire plant. Main product of the plant is high pressure hose used in airplanes and automobiles.





FIRST TWO STEPS in making curved radiator hose at the Marion B. F. Goodrich plant are shown here. In the upper picture, Paul Rowse tends the warm-up mill which makes the rubber pliable. A strip of rubber then is fed to the machine shown in the lower picture, a tube machine operated by John Dean. The rubber is formed into tubes and coated with cloth mesh in one operation.

Burglar Is Premature With Thank You Note

RICHMOND, Ky. (AP)—Carlos Edwards, 18, was writing the owner a note of thanks for the "Christmas money" when state police arrested him and two other teenagers in the act of ransacking a cafe.

The note said:

"Thanks for the money. I need it for Christmas. I am a bad boy for doing this."

The other two were identified as George Smith, 16, and Leroy Jones, 17.

The trio was charged with storehouse breaking and held without bond.

$50,000 Court Action Dismissed at Bucyrus

Special to The Star

BUCYRUS — Dismissal of a $50,000 action for money, filed by Robert K. Baird of Levittown, N. Y., as administrator of the estate of Gordon E. Baird, against Bennett Shaffer of Tiro, and the M. and M. Trucking Co., Akron, was announced here today by Common Pleas Judge John C. Carroll.

The action followed an accident north of Bucyrus on State Route 4, on Sept. 4, 1949, in which Gordon Baird, 20, New York, N. Y., and Harold Hoffman, 38, Akron, were burned to death when the Hoffman truck collided with a truck driven by Shaffer. Young Baird, a college student, was riding as a hitch-hiker in the Hoffman truck, which was owned by the Akron trucking firm.

At a scheduled hearing of the action, the plaintiff failed to appear while the defendant trucking firm was represented by counsel.

New Contract Ends Bus Strike Threat

CLEVELAND (AP)—A strike threat against Pennsylvania Greyhound lines ended yesterday when an AFL union announced approval of a new three-year contract.

The union of Drivers, Maintenance Men and Terminal Employes got a contract giving them an 8-cent hourly pay boost retroactive to May 1, and 4-cent hourly pay boosts in the second and third years of the past. Present scales were not available.

William Arthur of Westerville, district council chairman for the union, said the 2,000 unions involved had given approval in a secret referendum.

Truman Recalls History in Declaring Personal Liberties Are Not in Danger

LOS ANGELES (AP) — Harry S. Truman, in an interview for television, is quoted as saying that personal liberties in the United States today "may be threatened, but they're not in danger."

U. S. Television News today released the transcript of an interview with the former President on a Kansas City, Mo., street corner by a roving television reporter, Clete Roberts. The reporter said Truman was one of those interviewed for the filmed program "Street Corner, U.S.A."

The former President was asked: "Do you believe that your personal liberties, as guaranteed by the Constitution, are threatened today?" He was quoted as answering:

"They may be threatened, but they're not in danger."

Asked for the basis of his thinking on this point, he replied:

"Well, it's happened before. We go through these periods of hysteria, have done it time and again. In the 1790s we had the Jacobin difficulty and they passed the Alien and Sedition Laws. In about four years they had to be repealed because they were actually in controversy with the Bill of Rights and the Constitution of the United States.

"Then along in the 30s we had an anti - Masonic proposition in which the Masons were accused of everything under the son, a lot of lodges were closed and a lot of people were persecuted on account of they were members of the Masonic organization.

"Ten years after that the 'no Nothings' and their principal yen was against the Catholic Church. They tarred and feathered priests, burned down Catholic churches and did a lot of things like that.

"The next go-round was the Ku Klux after the Civil War, and that was revived in 1922 to 1928 and Al Smith was a victim of that anti-Catholic, anti-Jew, anti-Negro proposition.

"Now we have a Communist scare. And if you know anybody that knows a Communist, I wish youd put him in touch with me, because Id like to see what one looks like. I don't think that the country is in any danger from an interior Communist uprising.

"Our difficulties are beyond the Iron Curtain, and it's been the policy to prevent the people on the other side of the Iron Curtain from putting the free world out of business. And that's the most important thing with which we are faced. If we can do that, then well have peace in the world and that's what we've all been fighting for."

Roberts then asked Truman:

"As I understand it then, Mr. Truman, you feel that the common sense of the American people—the good judgment—will triumph?"

"Oh, certainly," answered Truman. "It always has, and then we're always ashamed of ourselves for these periods of hysteria, and it will be the same way about this one."

Prince of Peace Contest Slated

Winner of County Event Will Compete

Linnea Gonzalez, winner of the New Bloomington and Marion County Prince of Peace declamation contests, will participate Sunday, Dec. 27, at 7:30 p.m. in the district contest to be held in the Main Street EUB Church in Mansfield.

The contest is in its 29th year under the continuous sponsorship of the Ohio Council of Churches, The young people who will participate in the district contest have won bronze medals in their community contests and silver medals in their county contests. Winners of the district contest will be awarded a gold medal.

The district winners will go to Columbus Jan. 17 for the semi-finals. The six winners in that final elimination will compete for college scholarships and cash prizes. The finals will be held at the Ohio Pastors' Convention which meets in Columbus, Jan. 25-28.

The contest is promoted annually by Ohio Council of Churches as part of its contribution to peace education in the state.

Calls on Holiday Should Be Made Early, Firm Says

Marionites were urged to make their holiday long-distance calls early this year by R. C. Fensenmeyer, division commercial manager of General Telephone Company.

Fensenmeyer said that while the entire operating force of the company will be used to handle the holday calls, the volume is expected to be so great as to cause some delays in the placing of the communications.

He said long-distance circuits will be arranged on a split basis with part of the lines used for outgoing calls, and the other part for incoming calls.

If the people can give the number of the phone they are calling, said Fensenmeyer, the calls will probably go through twice as fast. He said the company expects from 50 to 100 per cent more calls on Christmas as on an ordinary day.

New Los Angeles Law Library Boasts Comfort

LOS ANGELES (AP)—A couple of steps have been taken to assure attorneys the ultimate in comfort when they study in the new county law library, a modern structure just completed in the Civic Center.

County officials announced yesterday that the library will be equipped with filters to keep out smog. In addition "melodious, instrumental type" music will issue from concealed speakers. In announcing the dedication ceremonies for next Monday, the officials said the soft music is designed "to induce concentration."

Jackson Betts Talks to Lions Club Members

Congressman of 8th District Discusses Coming Legislation

Jackson Betts, representative to the U. S. Congress from the eighth Ohio district, spoke on activities of the last session of Congress at the Lions Club meeting Monday at Hotel Harding. Marion County is included in the district.

Speaking mainly on the financial appropriations of the legislative body, Betts said the general trend under the Republican administration is away from bureaucracy and "large donations of money."

He said the idea of cutting down on giving money away seemed to be reaching not only to foreign countries only 25 per cent. Today, well.

Change Noted

One significant change Betts noted was in the proportion of the distribution of foreign aid.

Several years ago, he said, the policy was to let European powers have about 75 per cent of the funds appropriated, and the Asiatic countries on 25 per cent. Today, though, a more even balance has been achieved with both Europe and Asia splitting the money in almost equal shares.

He also discussed some of the major problems facing the new session of Congress. Among the most important ones, he said, were those of agricultural subsidies, excise taxes, and corporation taxes.

No Predictions

Betts declined to predict the outcome of these problems. He said committees had been formed and were now studying the questions. When those committees have made their report, Betts said he would make a statemen on the matters.

He also said he wished to hear from his constituents on the matters and get their opinions.

Guests at the meeting were Betts' secretary from Findlay, Monty Monroe, and the following men from Marion: Ralph Carhart, Theodore Parsell, Karl Saenger, Kenneth Abbott, and R. T. Mason.

Speaking at the meeting next week will be Merle Wise. His speech will be on the Alcoholics Anonymous organization.

Christmas Spirit There, Traffic Tickets or Not

Marion police felt the Christmas spirit today.

They received a Christmas card from a Marion woman. Enclosed in it was a $3 check to cover three tickets she had received for parking violations.

Former Marion Woman Dies at Home in Illinois

Mr. and Mrs. John W. Moser and son, George, of 255 N. State St. have returned from Chrisman, Ill. where they were called by the unexpected death of Mr. Moser's mother, Mrs. Mary Elizabeth Moser, a former resident of Marion. She had been in failing health for the last two and one-half years.

Mrs. Moser, 82, died Thursday evening at the home of her son Edgar Moser, with whom she resided. A native of Illinois, she made her home here a number of years ago. During her residence here she attended the United Brethren Church and was active in the work of the various women's groups.

Surviving with the sons are two daughters, Mrs. Edith Martin of Cleveland and Mrs. Fay Howe of Casey, Ill.

Funeral services were conducted Saturday at Chrisman and burial was there.

A MAN AGE 65 WRITES SANTA CLAUS . . .

Dear Santa:

It has been many years since I have written to you. But now that my 65th birthday and Christmas fall almost together, I am writing you again, just as I did years ago. Do you remember how at 10, I asked for a magic lantern—that at 15 I wanted a Tux more than anything else—and at 20 . . .

Now at 65, my greatest need is for money. I never asked for money before because for forty-odd years I could always earn money. Now, though, Mother and I are here alone. Poor investments took so much of my savings (yet the doctor says I must not work.) I guess this is an old story to you, since so many of us have said, "It won't happen to me" . . . Of course a man my age doesn't need a lot of money—just income—just a few dollars he can depend on each month. But how desperately he needs those—for necessities, and peace of mind and self-respect . . .

I guess, Santa, it's too late for even you to help me. But it isn't too late for thousands of others. I hope, Santa, that you'll drop a little note under their Christmas trees. Tell them, please, about how Life Insurance can be Christmas Insurance, guaranteeing regular income and peace of mind when Time says "Work no more."

John Hancock Life Insurance Co. still makes Independence possible.

Hope, Patience On Red Talks Urged by Dean

WASHINGTON (AP)—Arthur H. Dean, who tried vainly for seven weeks to arrange a Korean peace conference with the Reds, has urged the nation to match Communist stalling with patience and hope.

"I do believe the Chinese Communists are determined to keep North Korea politically and economically integrated into their own economy," he told a nationwide television and radio audience last night.

By No Means Hopeless

"The outlook is discouraging but by no means hopeless. There is no easy, pat solutic . It will take all the brains, energy, resolution and patience at our command."

The special ambassador spoke in a report to the people on the Panmunjom talks, from which he walked out 11 days ago after the Reds accused the United States of "perfidy."

He said the Communist negotiators aimed for a long-drawn-out session in the hope Americans would lose patience and, through public opinion, force a settlement on Red terms.

"The meat of the coconut holding up the talks, he said, was Communist insistence on including five nations, including India and Russia, as neutrals at the proposed Korean peace conference.

Worked on India

He said the Reds sought to drive a wedge between the United States and India by creating an impression that the United States "does not like India."

He said he is sure that, even if no peace conference is arranged, there will be no shooting again in Korea.

The Reds do not want it because they "took a terrific beating," he said, and both the United Nations allies and South Korea, which had threatened to go it alone, are determined to abide by the armistice agreement.

Deans public report came after he met at the White House yesterday with President Eisenhower and after he talked with the ambassadors of the 16 other nations which fought in Korea.

Dewey Puts Crime Prober in Charge Of Racing in N.Y.

NEW YORK (AP) — George P. Monaghan, a top cop and veteran crime prober, is now the "iron hand" czar of the quarter-billion dollar harness racing sport in New York state.

Gov. Thomas E. Dewey yesterday cut across party lines to name Democrat Monaghan, his long-time friend, to the new post of bossing the affairs of the eight trotting associations which operate at seven tracks.

Monaghan, who has been New York City's police commissioner since 1951, sat in at the press conference as Dewey made the announcement, declared cleaning up harness racing "presents a great challenge . . . that I readily accept."

He said he would resign his city post Dec. 31 and take over the state assignment the next day. Monaghan will be 53 in January.

Dewey said enabling legislation to give Monaghan a title other than the temporary "czar" designation and to fix his salary would be asked when the Legislature convenes. As police commissioner he received $15,000 annually.

Colorado Mother Loses Two Daughters in Fire

LEYDEN, Colo. (AP)—Mrs. Earl Spriggs returned yesterday from a neighbor's to find her four-room frame house ablaze. Inside were her two small daughters.

She rushed into the flames and carried 3-month-old Gloria Jean from the building, but too late—the infant was dead from suffocation.

The other daughter, Thyrena May, 2, was burned to death.

FRES-SHORE OYSTER STUFFING
A Jean Allen Recipe

2 quarts bread cubes
1 cup melted butter or margarine
2 teaspoons poultry seasoning or sage, if desired
2 teaspoons salt, ½ teaspoon pepper
1 cup finely cut celery
1½ pints Fres-shore Oysters, drained and cut in small pieces
Liquor from oysters

Mix ingredients in order given. Toss together lightly until well blended. This is a light, fluffy dressing. If a moist dressing is desired, add giblet broth. Yield: sufficient for a 10-lb. turkey.

Grover Whalen To Lose Job as N.Y.'s 'Greeter'

NEW YORK (AP) — Mayor-elect Robert F. Wagner Jr. says he will drop Grover A. Whalen after 35 years as official city greeter and name Richard C. Patterson Jr. to the job.

Patterson, a native of Omaha, Neb., served as ambassador to Yugoslavia and Guatemala, and was minister to Switzerland until last June.

TV HELPS READING

BIRMINGHAM, Ala. (UP)—Fant H. Thornley, director of the Birmingham Public Library, says television has actually stimulated interest in reading. The combined city and county circulation for the year ended Aug. 30 was 1,524,096, largest circulation since the depression year of 1933 when "many persons did not have anything to do but read."

REJECTS COMMUNISM. Mrs. Chester Green of Monticello, Ark., hears that her son, Cpl. William Cowart, who previously had rejected repatriation, has decided he wants to come home. "I knew all the time that my boy wasn't a Communist," the happy mother said. Cpl. Cowart's picture is at right.

U.S. Music Public Likes German Songs

FRANKFURT, Germany (UP)—Some of the most popular songs in the United States in recent months bear a "made in Germany" label.

The most popular song of German origin today is "You, You, You." When a Hamburg composer, Lother Olias, first wrote the tune the German lyric went like this: "Du, du, du, lass mein kleines her in ruh." Translated: "You, you, you,—leave my little heart in peace."

Another German-American hit of recent vintage is "Auf Widersehn," with record sales on the other side of the Atlantic at about the 1,000,000 mark, according to its composer here, Eberhard Storch.

And there was German composer Wiga Gabriel's "Tango Max," which Tony Martin made popular as "Relax." Paul Linckes' old favorite "The Glowworm," with a new set of lyrics, had a great new popularity in America a few months ago.

Britons seem to like "Auf Widersehn," just as much as Americans and Germans do. Another German hit, "Haben Sie Nicht Eine Frau Fuer Mich," by Heino Gaze, is now doing fine in London as "Have You Got A Girl For Me?"

Will Berking, composer and conductor of the Frankfurt radio dance orchestra, happily reorted that one of his latest songs, "Der Zauber von Paris" (the enchantment of Paris), is selling well on the French market as "Cest Ce Le Faubourg."

Modern Jericho in Jordan, 840 feet below sea level is the world's lowest lying town, says the National Geographic Society.

Senator Sees Effort To Cut Farm Prices

Planned Move Could Start Depression, Symington Claims

WASHINGTON (AP)—Sen. Symington (D—Mo) said today there is afoot in the nation an organized effort aimed at lower farm prices that could be "a long step toward another depression."

And that effort is supported by statements of high officials of the Department of Agriculture, he wrote the editors of the Providence (RI) Journal. His letter criticized parts of a recent Journal article on the farm problem, particularly sections dealing with the views of Missouri farmers.

Symington said a farmer wrote him recently asking why men "who call themselves farm leaders ask for lower farm prices when labor union leaders are not asking it for labor, and industry is also looking out for its interest."

Symington commented:

"What is wrong with this question from this farmer to those farm leaders now demanding lower farm prices?

"If these farm leaders are successful in their demand," the senator said, "will it not result in the farmer taking an even lower relative position in the present national economy?

"All these efforts for lower farm income are supported by statements of present high officials of the Department of Agriculture."

An undersecretary of agriculture stated last April, Symington said, that it would be better if the marginal farmer got out of the farming business and into industry and his land was turned over to grass and other soil conservation practices.

"But industry is now laying off more experienced workers—and the secretary has not taught the farmer and his family how to digest the grass," the senator commented.

Harding and St. Mary Cage Crews in Road Games

Presidents Invade Findlay; Irish Will Visit Columbus

St. Mary and Harding, both beaten in their last outings, are in quest of victories on enemy courts tonight.

Jim Lawler's Harding charges meet Findlay in a Buckeye League contest while Ray Robbins takes his Irish cagers to Columbus for their battle with Columbus Aquinas in the Aquinas gym.

It will mark Harding's final game of the year. However, St. Mary still has two dates remaining on the 1953 portion of its basketball schedule. The locals appear in the annual Holiday Carnival here Dec. 28 and 29 with Lexington, Radnor and Elm Valley.

Aquinas on Losing Streak

St. Mary will be seeking to stay above the .500 mark in its game with Aquinas. The hosts have lost six straight games this season.

Tiffin Calvert dropped the St. Mary 75-62 here last Saturday although the Irish showed their best offense of the season. The loss dropped St. Mary's record to 2-2 for the season.

Harding will be out to snap a two-game losing streak which came on the heels of four straight opening-game wins. Bowling Green only last Friday submerged the Prexies 76-53 in the Buckeye League opener for both squads. Findlay will be seeking its second straight Buckeye League win of the year. The Trojans edged Tiffin Columbian 51-47 last Friday.

Findlay's Record

Findlay takes a 2-3 record—one of its worst in years—into the Fray. In its last game, with Lima Central Saturday night, the Findlay Trojans lost, 43-33. In earlier action, Findlay had beaten Berea while losing to Van Wert and Bexley.

St. Mary is in quest of its third victory of the season after defeating Carey 55-50 and Fostoria St. Wendelin 43-33 and losing to Mt. Gilead 53-51 and Tiffin Clavert.

Harding's slate thus far shows wins over Bexley 61-47, Galion 72-38, Willard 96-35, and Columbus Aquinas 66-57 and losses in its last two tilts to Columbus West 74-71 and Bowling Green.

Won Twice Last Year.

Last year, Findlay's strong quintet—although its wins don't count because it was under suspension—dropped Harding twice.

St. Mary edged Aquinas by a single point in their game here last year. The Aquinas club shows a 79-51 loss to Columbus South and a 64-42 loss to Columbus Central in its last two outings. Previous losses were to Columbus East, Greenfield McClain, Delaware and Linden McKinley. Big gun for Coach Bob McQuade's squad is Ralph Reiser, a 6-1 forward. He is assisted by Bill Nye and Tom Goble.

Big guns for this year's Findlay squad are David Miller, 6-4, and sophomores John Johnson and Rodney Shafer. Miller dropped in 11 points in the loss to Lima Central while Shafer added ten and Johnson eight. Other boys likely to see action against Harding are Ray Siferd and Tom Gulker.

Coach Jim Lawler is expected to go with Ron Conroy, 5-8½, and Don Smith, 5-7, at guards; Doug Bibler, 5-7, and Bob Hamor, 5-11, at forwards; and Dave Schnelker, 6-2, at center.

Cnroy has been the spark of the Harding attack to date with 95 points in six games. Hamor is next in line with 70 while Smith has notched 62, Bibler 57, and Schnelker 51.

However, in the tilt with Bowling Green, Smith led the Harding attack by popping in 24 points. Conroy with nine and Hamor with eight were next in the scoring department.

St. Mary will probably have Mike Anderson, 5-11, Roger Micheli, 5-10, and Butch Merchant, 5-7, playing on the outisde and Jack O'Keeffe, 5-10½, and Larry Ryan, 5-10½, playing the double pivot.

Jerry Ballenger, John Messenger and Pat O'Connor will probably also be seeing action tonight.

Anderson, last year's Irish leading scorer, currently is pacing the St. Mary offensive with 75 points in four games. Micheli had added 35, Ryan 20, Merchant 19, Messenger 17, Ballenger 16, and O'Keeffe 11.

In the tussle with Tiffin, Anderson came in with 23 points while Merchant added nine, Ballenger eight, and Messenger and Jon Smith, a freshman, each seven.

Injured Sports Writer Better, Returns Home

LINCOLN, Ill. (AP)—Fritz Howell, sports editor of The Associated Press in the Columbus, Ohio bureau, says he will leave today for Columbus for the holidays following his discharge from a hospital where he was treated and X-rayed for head injuries.

Howell and his wife were injured in a fight Sunday night to subdue the estranged husband of a woman who had been visiting at the home of Howell's sister-in-law, Mrs. Clara Kief in the village of Hartsburg, a few miles west of Lincoln. Mrs. Howell was released from the hospital yesterday with her husband after X-rays had been taken.

Howell said he tried to protect Mrs. George Rademaker and was hit on the head by a gun wielded by her husband. Mrs. Howell was kicked in the head during the scuffle to wrest Rademaker's gun from him and subdue him.

THROWS HIMSELF A PASS

SEATTLE (AP)— It took a lot of fancy ball handling but a quarterback threw himself a forward pass for a 45-yard gain. Foster (Wash). High school was on its own 45-yard line when Quarterback Kenny Kay tossed a pass to End Bob Pitts, good for 12 yards. As Pitts was about to be tackled he threw a lateral to Fullback Harlow Stevens who in turn flipped to Left Half Wilbert Johnson. After running for eight more yards he lateraled to Right Halfback Mike Fleming who lobbed the pigskin to the player who started the play — Kenny Kay.

SHORT SPORTS
By John Short

Bob Feller, during a recent appearance at a Little League awards program here, indicated he wasn't too impressed by the chance of Rocky Nelson with the big league Indians.

SHORT

The dean of the Cleveland mound staff said he felt Luke Easter and Bill Glynn would again share first base duties for the Tribe. A look at the statistics from the triple-A International League however, indicates Feller could be wrong.

Nelson held down first base for the runner-up Montreal Royals and played in 154 games over the season. He finished with a .308 batting average and topped the circuit in runs batted in with 136. Pitchers around the league were extra careful when pitching to the slugger. He drew 106 passes, tops in the league, and was hit by opposing hurlers 11 times, another league high. Nelson pounded out 117 hits for 167 total bases. Included in his hit production were 33 doubles, nine triples and 34 home runs. He struck out 37 times in 542 trips to the plate.

Only one first sacker in the league turned in a better fielding performance than the new member of the Indians. He finished with a .992 average, committing only 13 errors in 1,542 fielding chances. His 1,423 putouts led the circuit and 106 assists were tops among the first basemen.

Elsewhere around the International League, Nelson Burbrink, former manager of the Marion baseball team, topped the league's catchers in fielding with a .985 mark. He was charged with eight errors over the campaign and six passed balls escaped him. Nellie was the first string catcher for Springfield.

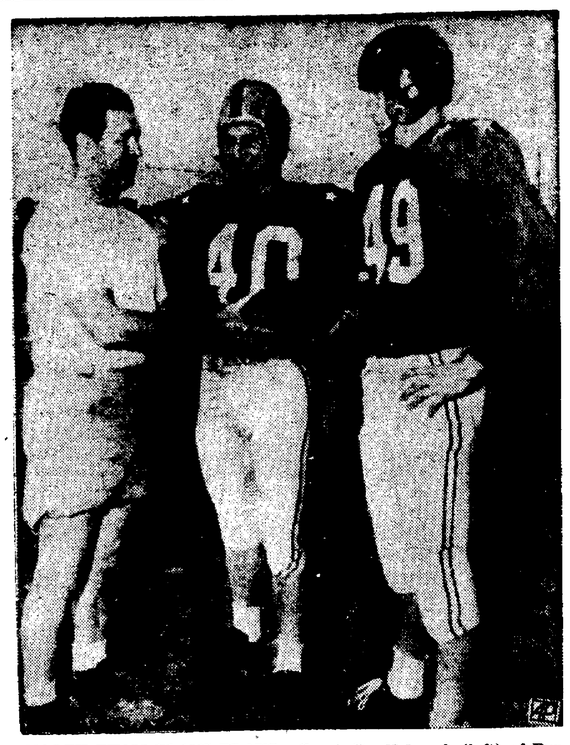
Burbrink ended the season with a respectable .276 batting average and drove in 47 runs. Twenty-two of his base hits were doubles. Another graduate of the Marion club, Vern Rapp, another catcher, was a regular performer in the league.

Catching for Rochester, Rapp turned in a .252 average at the plate and drove 30 runners across the plate. He belted nine three-base hits during 97 games in which he saw action. He was charged with six errors and a pair of passed balls to rank just below Burbrink in fielding with a .982 fielding average.

George Young To Leave Professional Grid Ranks

CLEVELAND (AP)—George Young, a defensive end for the Cleveland Browns since 1946, plans to quit pro football after the championship game against the Detroit Lions Sunday.

Young, one of the eight "old men" with the Browns since they were organized, said he would take a full time job, probably in industrial relations, with the Public Service Co. of northern Illinois. He has worked for the firm during off seasons for the past two years.



NORTH TEAM PLANS PLAYS. Coach Stu Holcomb (left) of Purdue, mentor for the North team in the annual Mahi Shrine North-South All Star football game Christmas night in Miami plans a play with his two stalwart ends, Don Penza of Notre Dame (center) and Ken Buck of College of Pacific.

Hockey Teams in Rugged Battle for First Place

CINCINNATI (AP) — The International Hockey League was snarled as usual today, with a scant four points or two games separating the top four teams.

The Johnstown Jets were in the lead with 36 points, 3 ahead of the Cincinnati Mohawks, and 4 points in front of Marion and Troy. Even eighth-place Fort Wayne is within reach of the top spot. The Comets have totaled 26 points in the league race, 5 games out.

The Pennsylvania entry in the 9-club circuit won 2 of its 3 contests last week, beating Milwaukee and Marion. But in a return match on the Marion ice, the Jets were slugged, 8-1, the worst defeat of the week.

Second place Cincinnati was one of four teams to top Milwaukee. Then the Mohawks lost to Troy and Grand Rapids by identical 4-2 scores.

Two other Ohio clubs, Marion and Troy, are tied for third. Troy climbed from a tie for fifth on the strength of its 3 wins. Marion won 1, lost 1.

Grand Rapids won both of its bouts, though losing a little ground in the standings. Toledo added a win and a tie for sixth spot in the skating derby. Louisville won 1, tied 1 and lost 2.

Fort Wayne saw action once—unsuccesfully at Troy.

The last time Milwaukee won was Nov. 28. Since then the Chiefs have dropped eight games.

Art Ruhl, Johnstown wing, will be out of action for six more weeks. He suffered a broken collarbone when he was thrown to the ice during a scramble at Johnstown.

OVER-AVERAGE SCORE

OMAHA, Neb. (AP) — Roger Luby of this city is claiming the year's best over-average bowling score. Luby a 139 average bowler scored an 88 game. Then he collected 10 straight strikes, but left a three pin spare to finish with a 287. His third game was 118.

GI Post, Ashley Elevator Win In Y Cage Play

G. I. Post, Ashley Merchants and Green Camp Elevator romped to easy wins in the YMCA Industrial and Open Basketball Leagues Monday night.

G. I. Post upset Raymond by a 60-39 count. Ashley belted Alloy 67-35 anl Green Camp walloped UAW-CIO 73-43.

G. I. Post raced to a 15-0 lead in the first quarter before Raymond could break into the scoring column. Raymond's inability to find the range early cost them the game as they came on strong in the final three periods to match the Legion. Ray Robbins who led the winners with 13 points dumped in eight of his total in the first period during the G. I. Post rally. Jack Tinnerello and Jim Finnegan both added 12 points to aid the winners. Fensel was high for Raymond with 11.

Don Howard and Jack McGrath, two former Elm Valley stars, lead the Ashley Mrechants to their 67-35 verdict over Alloy, Howard pumped in 22 points from the outside on his favorite one hand jump shot while McGrath effectively covered the boards on both ends of the floor. Alley's lack of height handicapped its scoring punch as it failed to get the seconl chance after misses from the outside. Johnson and Garver were high men for Alloy with 11 and 8 points.

Green Camp jumped to a 20-12 irst quarter lead and then poured it on to take an easy 73-43 verdict from the UAW. Green Camp had too much height with the Weston, Daum, Craycraft combination under the boards. Daum tossed in 19 points from his post position under the boards while Weston followed with 16 and Craycraft with 11.

Florida's Fans Prefer Ebert to Rio's Francis

MIAMI BEACH, Fla. (AP)—Ohio State University's basketball team set an OSU scoring record last night by downing the University of Miami 106 to 81.

The win—after the Bucks' first loss of the season to Louisville, Ky., represented the most points ever scored by the Ohioans in one game. The old record of 95 points was established in a victory over Michigan last March.

Other OSU records fell. The old and the new records: Most field goals in one game by Ohio State, 44, eclipsing the 38 Ohio scored against Indiana Feb. 24, 1945 in the OSU Men's Gym; most points, both teams, 187, toppling the 175 points scored when Indiana defeated Ohio 95-80 Feb. 25, 1952, at Bloomington; most field goals, two teams, 77, cracking the 66 set by Illinois (40) and Ohio (26) March 7, 1953, at the Coliseum.

Paul Ebert, Ohio's sensational center, failed to equal Bevo Francis 48-point output against Miami Saturday but he turned in a fine performance with 35 points. The majority of the fans gave him the edge over the Rio Grande center as an all-around player. He clicked 14 of his 28 field goal attempts and topped both teams in rebounds with 25.

Illinois Drops First Cage Decision; Bucks Set Record

By BEN PHLEGAR

NEW YORK (AP)—Oklahoma A&M, the nation's fifth-ranking basketball team, has had its revenge on the Big Ten for its only loss of the season.

The Cowboys pinned the first defeat of the winter on fourth-ranking Illinois last night, 65-60, in overtime, and they did it on the Illini's own court at Champaign. The Oklahoma club's lone setback so far was by one point in overtime against Minnesota.

Illinois was one of three major teams which lost for the first time last night. Rice whipped Vanderbilt 79-60 and top-ranking Indiana squeezed past Oregon State 76-72 in overtime.

Kentucky's resurgent Wildcats broke loose in the third quarter for an 85-69 decision against Duke in the first round of its own invitational tournament at Lexington. La Salle defeated UCLA 62-53 in the other first round game.

Eight Big Ten teams saw action and the conference just managed to break even. In addition to Illinois' defeat, Michigan bowed before a 26-point fourth quarter splurge by Cincinnati 81-62; Louisiana State held Northwestern to two points in the third quarter in its 78-51 victory; and Tulane edged Wisconsin 57-55 as Hal Cervini sank four of six free throws in overtime.

Ohio State ran up its all-time high total as it overwhelmed the University of Miami (Fla) 106-81 with Paul Ebert scoring 35 points. Minnesota remained unbeaten with a 66-63 triumph over Tulsa. Iowa came from behind to nip Colorado 78-72 and stretch its perfect home record against nonconference teams to 61 games.

Indiana had a real battle before subduing Oregon State. The Hoosiers led by four points at halftime but held only a one-point edge after three quarters and were caught at 63-63 before the regulation game time ran out.

The thriller was the nightcap of a double-header in which Oregon ran away from Nebraska 84-68 in the first game.

Bradley surprised Southern California 79-64, the third loss for the Trojans on their Eastern tour.

Loyola of New Orleans hit 41 per cent of its field goal attempts in beating Detroit 79-63 but Loyola of Los Angeles and Loyola of Chicago weren't as fortunate. The California school was beaten 77-64 by Stanford and the Chicago team lost to Western Michigan 80-68.

St. Joseph's of Philadelphia beat Lafayette 59-57 on a jump shot by Billy Lynch with six seconds to play. California breezed past Hawaii 77-56.

Indians Scheduled In 34 Spring Tilts

CLEVELAND (AP)—The Cleveland Indians announced a short, 34-game spring training schedule today which includes only two games in California and none against a minor league opponent.

Instead of the 10 to 14 days the Indians used to spend playing from San Diego to San Francisco, the Tribe will play only two games in California this year—both at Los Angeles against the New York Giants, March 20 and 21.

Cleveland will play 23 of its exhibitions against the Giants, 6 against Baltimore and 5 against the Chicago Cubs.

Parker Gives Brownies Edge In Fullbacking

DETROIT (AP) — Coach Buddy Parker of the Detroit Lions concedes the Cleveland Browns' one-two fullback punch of Harry Jagade and Marion Motley gives them an edge in that position for Sunday's pro football title game.

"Motley may be 33," says Parker, "but he plays like 23 against us. We can't seem to stop the guy.

"And Jagade," Parker continued, "he's one of the toughest in the league to bring down."

Parker must drool when he thinks of this one-two punch. He hasn't even had one full-time fullback all season.

Bob Hoernschemeyer, normally a halfback, will start at fullback against the Brownies, Gene Gedman, a rookie from Indiana University, will fill Hoernschmeyer's halfback spot.

Age suddenly caught up with Pat Harder, last year's regular fullback, and he was placed on the inactive list in the middle of the season. That left the Lions without a top fullback threat.

Ollie Cline, the former Ohio Stater, was tried at the position but was too slow. Lew Carpenter, a rookie from Arkansas, gave it a whirl but his inexperience was apparent.

Then Parker turned to Hoernschemeyer, who responded with solid, if not sensational play. He led the team in ground gaining for the fourth straight year, with 482 yards, and was the third best pass catcher, with 23 receptions.

Hoosiers Retain First Place in Basketball Poll

NEW YORK (AP)—Indiana's unbeaten Hoosiers and Kentucky, winner of all five of its games, are still running one-two as the nation's leading college basketball teams.

The Hoosiers, picked in the preseason poll as the team most likely to succeed and on top ever since, rolled up 933 points in this week's Associated Press poll of sports writers and broadcasters.

Kentucky, seeking to regain the No. 1 spot after a year of enforced idleness, stayed close to Indiana with 896 points and actually received more first-place votes—36 to 35.

Duquesne, with nine first-place votes and 692 points, held to third place on the basis of a 7-0 record. Illinois also remained in the fourth spot with 514 points but, after the ballots were counted, the Illini dropped their first game of the campaign 65-60 to the Oklahoma Aggies.

The Aggies (8-1) moved up a couple of notches into fifth place and Western Kentucky (9-0) took over sixth after being 10th last week. Fordham (6-0) also jumped two places into the seventh spot, followed by Minnesota (5-0). Holy Cross was the only newcomer to the top 10. The New Englanders were ranked 14th a week ago. Louisiana State (5-1) dropped all the way from fifth to 14th.

The top 20 with number of first-place votes in parentheses:

Ex-Minor League Star Weds Widow of Friend

MILWAUKEE (AP) — Fiery Harry Clark, who led Milwaukee to its first baseball championship as manager and third baseman of the 1913 - 14 American Association Brewers, was married here yesterday to the widow of an old friend.

Clark, 70, and Mrs. Amanda Leysenaar, were married by Circuit Judge Ronald Dreschsl er.Calksr Judge Ronald Dreschsler. Clark's first wife died last February and Leysenaar 10 years ago.

Clark, whose home is in Paulding, Ohio, managed the Brewers two separate times, from 1913 through 1916 and again from 1922 through 1924.

Scott Field's Christmas Dinner in Jeopardy

COVINGTON, Ky. (AP) — The Christmas turkey and chicken dinner for Air Force personnel at Scott Field, Ill., is in jeopardy.

A truck, loaded with 22,000 pounds of frozen turkey and chicken and destined for Scott Field, was held here today because of an $11,000 lien against the truck owner.

The Kenton County sheriff's office said the lien was filed against the Green Brothers, a Kenton county firm, by the International Harvester Co. A spokesman for the sheriff said "every effort is being made to release the truck so the boys at Scott Field won't miss Chrisitmas dinner."

Marge Kraus hit 227-548 to pace bowlers in the Monday Night Ladies League at Palace Recreation. Five games of 180 or over were rolled there. Baldauf Construction, which cracked 855-2478, copped team honors.

Bowlers in the Marion Industries League at Marion Recreation were topped by A. Cortese's 223-585. Inspection rolled 880-2440 for team laurels.

Eugene Lashey's 233 and Lefty Clark's 611 topped bowlers in the Nite Shift League. Four other 200 games were posted, with Lefty Clark hitting 224, Don Cook 213, Dick Moran 201 and Bob Hollaway 200. H & H Bar & Grill hit a 900 game and a 2653 series, the league high.

John Kayatin's 201-563 markup showed the way in the Mercantile League. Val Mar Grill's 858-2458 paced the teams.

Utility League bowlers were led by P. Miers' 211 and J. Kerr's 559. Four 200 games were rolled there. Team No. 7's 873 and team No. 4's 2425 were the best team scores.

Henry Batters Bob Baker for Comeback Win

By JACK HAND

NEW YORK (AP)—Clarence Henry, back in action after a long layoff, looks like an important new factor in the heavyweight picture.

Henry gave Bob Baker a sound thumping last night at Brooklyn's Eastern Parkway to win a unanimous decision in a 10-round match. It was his second bout in 18 months because he was shelved for over a year due to a damaged optic nerve. The fighter insists it was a shoulder injury but his manager and trainer admit it was the eye nerve, now completely healed.

"We'd like Earl Walls, Nino Valdes, Ezzard Charles or anybody," said Manager Jimmy Wilson. "Of course, we'd like the champion too but we know we'll need a few more wins before we can start talking about that."

Teddy Brenner, Eastern Parkway matchmaker, said he wanted to match Henry Feb. 15 with the winner of a Jan. 25 bout between Rex Layne and Tommy Jackson.

Henry fought a smart fight against the lumbering Baker, who outweighed him 211½ to 184½. Stabbing Baker with his sharp left and hooking almost at will, Henry built up a wide early lead. The Los Angeles Negro seemed to tire in the sixth and seventh although he said he was pacing himself.

The ninth was the big round with Baker moving in to slug it out, only to run into a blistering barrage that drove him groggy around the ring. Baker, hulking Pittsburgh double for baseball's Don Newcombe, appeared ready to go down.

'Second Look' Bad Choice for Bookie

BALTIMORE (AP) — A group of vice squad men patrolling a hotel lobby yesterday heard a voice saying:

"Second Look in the second."

Lt. Joseph Byrne ordered his men to take a second look and they placed Walter L. Wimberly under arrest.

Byrne said Wimberly, 60, was calling the name "Second Look" into a telephone. Coincidentally, a horse by that name was running in the second race yesterday at Tropical Park.

Byrne charged Wimberly on one count of bookmaking and two counts of using slugs in a public pay telephone.

Lausche Rips Plan To Extend Liquor Hours

COLUMBUS, Ohio (AP) — Gov. Frank J. Lausche today expressed opposition to a proposal that would permit liquor spots closing at 1 a. m. to stay open to 2:30 a. m.

The state liquor board is considering a modification of a regulation to permit the later closing hour.

"This should not be permitted to happen," Lausche said. "If anythem to stay open until 2:30 a.m. shortened rather than lengthened."

Taverns holding D3 permit for sale of liquor by the glass must close at 1 a. m. Some of those bars have D3A permits allowing them to stay open until :30 a. m.

The board is considering a proposal to modify its "freeze" on liquor permits to allow D3 licensees to obtain D3A permits for the later closing hour. Under present law, D3 permit holders are eligible for D3A permits on payment of an additional $100 fee, but the board's "freeze" has blocked recent issuance of D3A licenses.

"There are at present about 3,100 licenses issued allowing operations until 1 o'clock, the governor said. "Of this 3,100, there are 840 vested with a license permitting them to remain open until 2:30. If the extension of time is made available, there will be 2,300 licensees eligible to apply for such extension of time. This should not be permitted to happen."

Texan Makes Sure Christmas Cards Will Be Delivered

GRAND PRAIRIE, Tex. (AP) — A Grand Prairie man walked into the post office yesterday and asked Asst. Postmaster Roy Childs whether he had any Christmas cards mailed without stamps.

Sure, about 200, Childs said.

The man thought a while. "Come to think of it," he said, "I believe I mailed a card myself last week and forgot to stamp it."

He pulled out a $5 bill and handed it to Childs.

"Here," he said, "I guess this ought to cover the postage for those cards and make it a merry Christmas to some people."

Ready-Made Egg-Nog With Party Cake

Holiday season, in every household, is the time of year for hospitality and informal entertaining.

With so many ready-to-use foods in the pantry and refrigerator, there is no need for the bustle and rush of weeks of preparation.

A favorite of the season, today as yesterday, is egg-nog. You can get it read-made, creamy-smooth and full of zest

. For a gay party, here's a buffet supper of egg-nog with party sandwich cake which can be prepared in advance

2 packages hot roll mix
Deviled ham spread
Relish-butter spread
Pimento cheese spread
Egg Salad spread
1½ pounds Philadelphia cream cheese
Milk

To make one large round loaf of bread: Prepare hot roll mix according to package directions. Bake in a greased, 9 inch spring form pan in a moderately hot oven, 375 degrees, for 30 minutes. Let cool in the pan.

Remove bottom crust and cut bread crosswise into 6 round slices about ½ inch thick. Cut off crusty edges from each slice with scissors.

Cover bottom slice of bread with deviled ham spread (3 2¼ ounce cans deviled ham). Top with second slice, covering this with relish-butter spread. (¾ cup drained pickle relish mixed with 6 tablespoons softened butter). Put on the third slice and cover with pimento cheese spread (two five ounce jars). Put on the fourth bread slice and spread with egg salad (4 hard-cooked eggs, chopped and mixed with 1-3 cup mayonnaise and 1 teaspoon dry mustard). Put on the fifth slice and spread with tuna fish salad (one 7¼ ounce can grated tuna fish mixed with 1-3 cup minced onion and 1-3 cup mayonnaise). Put on the last, top slice.

Spread the outside of the cake with cream cheese that has been softened and mixed with a little milk and colored with a few drops of pure food coloring. Chill in the refrigerator for three hours or overnight. Serve garnished with shrimp, green and ripe olives, cauliflowerettes, carrot curls, radish roses and parsley. Makes one 9-inch cake.

N.Y. Stock Quotations

NEW YORK (AP)—Aircrafts and chemicals were hardest hit today in a declining stock market.

The retreat went to between 1 and 3 points at the outside in key areas. For the most part, however, changes either way were fractional.

Going lower along with the aircrafts and chemicals were the steels, motors, railroads, coppers, distillers, and utilities.

North American Aviation, which has been active and higher for several days, reacted today with a loss of between 1 and 2 points following a highly favorable earnings report. The company reported profits for the fiscal year ended Sept. 30 equal to $3.72 a share as against $2.28 a year ago.

Slipping stocks included Chesapeake & Ohio, United Air Lines, American Telephone, American Smelting, Allied Chemical, Du Pont, General Electric, American Woolen, Bethlehem Steel, Chrysler, Boeing, Douglas Aircraft, United Aircraft, and National Distillers.

Women Given Business Tips From Executive

WESTFIELD, Mass. (UP) — Lady, how would you like a $25,000-a-year job?

Catherine L. O'Brien, who holds one, says that any well-educated woman with a zest for hard work can reach for the big money in today's business world. Of course, all won't attain the $25,000 mark But she figures they'll do all right financially.

"Women have earned a place in the business world and I believe there will be more opportunities for career women at the executive level in the future," she says.

Miss O'Brien's success story dates from the depression year of 1931 when she and a male associate started the Stanley Home Products, Inc., in a little old tobacco shed in a backyard at Westfield. The first year the firm did a $72,000 business. Last year gross sales of brushes, cleaning equipment and other household gimmicks totaled $101,000,000.

In 1950 Miss O'Brien became president after working at every other job involved in the firm's operations. Even today it isn't unusual for her to stage one of the home demonstrations which have ballooned yearly sales into the nine-figure bracket.

A vibrant woman of 50, Miss O'Brien is five feet, one inch tall, with brown hair and blue eyes. Each morning she leaves the large colonial-type home where she lives with her parents, brother and sister and by 8 a.m. is at her desk. There she stays, except for her lunch hour, until 5:30 p.m. or later, dictating letters or conferring with company officials or visitors.

For fun, Miss O'Brien does a bit of gardening on her four - acre estate, and collects figurines.

What qualities does a woman need to achieve success such as hers? Miss O'Brien lists these 10:

1. Ability to think straight and keep your ideas practical.
2. Ability to deal with and influence people.
3. Capacity for hard constant work and giving your all to your job.
4. Practical experience in the field of your choice.
5. Good physical condition.
6. Lively interest outside your job.
7. Liberal education that teaches you to think.
8. Strong sense of humor.
9. Complete honesty.
10. A great faith in your job, in people, and in God.

Miss O'Brien warns that once a woman has reached the top in her field, "she must constantly strive to maintain that position, the same as any top man executive."

Patrolman Lightens Load With a Song

Garnet Moore of Marion Post Making Name for Self as Entertainer

When you're sailing along the highway sometimes, and everything is "right" with the world, do you ever feel like singing?

State highway patrolman Garnet Moore does—and cuts loose with an Irish ballad.

Singing is his avocation. And he once considered making it his career. That was before he fell in love with the state highway patrol.

—:—

PATROLMAN MOORE, second in command at the Marion patrol post, has worn the uniform of the Ohio traffic patrolmen for seven years, but has maintained his ambition all along to gain some recognitions as a singer.

He's been getting that recognition of late and is often called upon to sing over the radio, or at PTA or club meetings where he combines entertainment with talks on highway safety.

Although he has decided to make the state patrol his life's work he still enjoys singing—to himself, his family, small groups, or on the air, all on "time-off" from patrol duties.

—:—

WHILE HE'LL SING almost at a wave of the hand, Patrolman Moore draws the line at one point—he never allows his singing to interfere with his work in the patrol.

A tenor, he became interested in singing when he was a teenager in Delaware County where he performed with school groups and in Sunday School choirs.

Later when his parents moved to Marion he entered Harding High School for his junior and senior years. While still interested in a career in singing he did little of it those two years.

Graduating in 1934, he became interested in the then infant Ohio State Highway Patrol program, but because he was not yet 21 could not join the patrol at that time. The state patrol was first organized with some 60 men in 1933 and has now grown to more than 600.

—:—

UNABLE TO further his voice training because of lack of finances and unable to enter the patrol because of his age, he turned to other work until World War II came along and he enlisted in the U. S. Coast Guard.

He was in service three and one-half years, stationed on the East Coast for a time, and later at a supply base at St. Louis and at Pearl Harbor.

During this time he found opportunities to sing before audiences at the Coast Guard Boot Camp at Curtis Bay, Md., and USO audiences at various places on the East Coast.

—:—

HIS INTEREST in police work was increased by a year's duty with a Navy Shore Patrol unit at Pearl Harbor. Association with many professional law enforcement men in the unit sold him on trying to get into the state patrol when released from service.

No sooner had he returned home than he applied and was accepted by the state patrol in 1946. He was assigned to various other posts before coming to Marion five years ago.

GARNET MOORE
Singing Patrolman From the Marion Post

Married to the former Donna L. Schneider, daughter of Mr. and Mrs. Fred W. Schneider of 134 Kensington Pl. he and Mrs. Moore reside at 1217 E. Church St. with their four children, Sandra, 6, Dianne, 5, Colleen, 4, and Patrick, 19 months.

—:—

WHILE THE PATROL and singing are his two biggest interests, Patrolman Moore does not limit himself to these alone. He is also interested in sports of all kinds—hunting in particular—and in gardening.

His sports interests started when he was in school. He was a letterman on the Radnor High School football team and was on the school track team also before his parents moved to Marion. Following this he was a member of various semi-pro baseball teams in Marion from about 1930 to 1940.

In 1935, he entered the Golden Gloves Boxing Tournament in Marion and was good enough to win the welterweight championship that year. He later turned pro and after several fights throughout Ohio got the opportunity to fight on the same card with the state champ. Following this bout, he gave up boxing, partly because of disapproval of his parents and partly because he could see no future in it.

—:—

HIS OTHER INTERESTS extend to membership in the Marion Sojourners Lodge 653, FAM and the Findlay Chapter and Council of the Masonic Order.

Well versed in patrol history from its very beginning to the present "Tiny," as he is called by fellow patrolmen, will recite any or all of this history to any willing listener. "I'm anxious to do anything which will promote good public relations for the department," he'll tell you.

Along this line, he is also instructor for the Highway Patrol Auxiliary in this area which is made up of 53 members of various American Legion posts in Marion and Morrow Counties.

Women Designers Inferior, Fath Says

NEW YORK (UP)—Women are bad fashion designers, says an internationally known designer — male.

Paris' Jacques Fath says the only role a woman should have in fashion is in wearing clothes.

The designer, in New York recently to work on his American collection for spring, contended that women are poor creators because they try to dress every other woman in the type of clothes they themselves like.

"Fashion is art," said the slim, blond Parisian. "Art is creative, and men are the creators. Look at the great painters, the great sculptors, the great writers.

"The woman designer sees fashion as she likes it. But a man will see it as hundeds of women like it.

"Take Anne Fogarty (the designer). She uses that one silhouette—the tight waist and full skirt. It looks good on Anne Fogarty."

Fath believes men have better business heads too.

He conceded there are exceptions to his argument—that the Lily Daches and Elsa Schiaparellis have been highly successful.

"But," he added stubbornly, "there'll come a day when all the great designers are men."

Some 570 species of native grass are found in Texas.

JAPANESE EXPORTS

TOKYO (UP)—Japan's exports for fiscal 1953-54 are expected to total $1,199,200,000, official estimates reveal. Earlier the estimate had been $1,180,000,000.

Christmas Story—No. 5

Rest During Flight

FLEE INTO EGYPT—Behold, the angel of the Lord appeareth to Joseph in a dream, saying, Arise, and take the young child and his mother, and flee into Egypt, and be thou there until I bring thee word: for Herod will seek the young child to destroy him.—Matthew 2:13.
(By Gerard David — Selected by Department of Worship and the Arts, National Council of Churches, Courtesy the Metropolitan Museum of Art.)

College Scientists Fooling Cane Crop

BATON ROUGE, La. (UP)—Fooling sugar cane is becoming a major scientific endeavor at Louisiana State University.

University researchers have developed a technique of forcing cane to bloom in early summer by tricking the plants into thinking it's fall.

How? They simply plant the cane in large crocks, expose them to sunlight for periods that correspond to the length of fall days, then roll the crocks into a large shed.

Each day the plants are given shorter stays in the sun, just as the autumn days would get shorter. The plants, thinking winter is near, start producing tassels and seeds, thereby giving LSU researchers an opportunity to advance sugar cane cross-breeding.

Cane, a major crop in this state, requires a long and warm fall season to grow the seed-producing tassels. Louisiana's fall normally doesn't last long enough, and if it did, a whole year would be required to produce tassels for each cross-breeding experiment, if nature were allowed to take its course.

Dr. St. John P. Chilton and Dr. Charles F. Moreland, who heads the sugar cane research at LSU, said they will be able to practice cross-breeding more than once a year instead of waiting for nature's opportunity.

If the crossing of a plant is not successful on the first try, they can force flower production and try again within a few months instead of waiting an entire year.

Drs. Chilton and Moreland have to be extremely accurate in moving the cane crocks into the dark sheds each afternoon. They reduce the daylight slightly more than a minute each day.

Cane-fooling is the second successful venture made by LSU entomologists into the business of tricking nature. In 1937, university horticulturists slashed vines on sweet potatoes. Instead of dying, the potatoes bloomed and set seed—enabling the crossing and breeding of new sweet potato varieties at the researcher's will for the first time in this country.

The technique resulted in Louisiana's national leadership in sweet potato production.

Child Expert Says Toy Should Fit Age

NEW YORK (UP)—You've got to be armed with advice as well as moneyy to do a proper job of toy buying these days.

It isn't enough to know that Junior takes to the bright and noisy. A toy also must be suited to his present stage of development.

The Toy Guidance Council, an education group, offers these suggestions by age groups:

The infant—unbreakable rattles, floating bath toys, soft rubber squeeze toys, washable dolls and animals, and sound-making push toys.

One to two—simple educational wooden toys, nesting blocks pull and push toys, soft dolls and animals, toys on wheels, outdoor sandbox and pails, children's records and picture books.

Two to four — kindergarten blocks, simple puzzles, trucks on wheels, crayon sets, airplanes, dolls, cowboy holster sets, doctor-nurse kits, housekeeping toys, inflatable water toys.

Four to six — games, furniture, kitchen equipment, telephones, crayon and paint sets, roller skates, scooters, dressed dolls.

Six to eight — simple sporting equipment, electric trains, construction sets, hobbycrafts, sewing kits, doll house furniture, doll wardrobes, parlor games, carpentry.

Eight to 10—advanced craft sets, simple chemistry and electronic outfits, advanced painting sets, electric train layouts, hobbies, magic sets, books, bicycles, and educational games and puzzles.

CHURCHILL BURNS HAND

LONDON (AP) — Prime Minister Churchill's burned left hand is healing normally and the 79-year-old statesman is "very well," a government spokesman said today. He burned his hand when a box of matches exploded Friday.

Christmas Joke

PORTLAND, Me. (UP) — Paul Gill said "No thanks" when asked to play Santa Claus this year. He remembered what happened when he impersonated St. Nick in a Bangor department store.

"Ho, ho," he had said, bouncing a boy on his knee. "What can I bring you for Christmasu"

Santa Claus caught a haymaker on the whiskers accompanied by the information, "You didn't keep your promises last year."

News of Servicemen

Two Upper Sandusky men, Cadets at the U. S. Coast Guard Academy at New London, Conn., will spend 15 days' Christmas leave at their homes. They are David R. Markey, son of Mrs. Marjorie D. Markey, and T. T. Matteson, son of Mr. and Mrs. Otto M. Matteson. The two youths were appointed to the Academy through nationwide competitive examinations which are held in February of each year.

The Coast Guard Academy offers a four-year, accredited, university level education which leads to a commission as ensign in the United States Coast Guard and to the degree of Bachelor of Science in Engineering. The Academy is a sister school to Annapolis and West Point.

Next examinations for appointment to the Academy class to enter next July will be held in principal cities throughout the nation on Feb. 23 and 24. Exams are open to qualified high school graduates and seniors in their last term between the ages of 17 and 22 Deadline for filing preliminary applications for appointment is Jan. 1. Applicants should write to the Commandant (PTP), U. S. Coast Guard, Washington 25, D. C

Cpl. William D. Hoon, son of Mr. and Mrs. Scott Hoon of near Huntsville, and husband of the former Miss Patty A. Dysert of Belle Center, is scheduled for an early December release from the Marine Corps at Camp Lejeune, N.C., after serving two years. Hoon, who plans to farm, was stationed at Camp Lejeune as a cook with the 8th Engineer Battalion.

—:—

Philip M. Williams, aviation structural mechanic airman, USN, son of Mr. and Mrs. E. J. Williams of Bellefontaine and husband of the former Miss Miriam J. Henry of Middleberg, is now stationed at the U. S. Naval Air Missile Test Center at Point Mugu, Calif. Prior to entering the Navy in October, 1952, he attended Middleburg High School.

Pvt. Chester Ward, son of Mr. and Mrs Francis Ward of 152 Barnhart St., is spending a vacation at home after completing basic training with the Army at Ft. Knox, Ky. He is to be transferred to Ft. Jackson, S. C., on returning to duty after the holiday. A 1950 graduate of Harding High School, he was employed by architect Charles Oborn prior to entering the service

—:—

Navy Lt. Willis Millisor of LaRue is a member of Airship quadron Four at the U. S. Naval Air Facility Weeksville at Elizabeth City, N. C. The unit recently received the Atlantic Fleet Efficiency "E" 'award for having the highest combatant standing of all lighter-than-air squadrons during the competitive year 1953. The award to the best airship squadron in the service was a flag pennant and gold engraved plaque.

Lt. Millisor, a blimp pilot, is in charge of the entire squadron there. A graduate of LaRue High School in 1939, he served during World War II and was in the Reserves until June, 1952, when he was called back into active duty. He has been stationed at Elizabeth City ever since, going on several trips by blimp to Cuba from there. Most of his four years during World War II was spent on patrol duty in the United States although he was stationed in South America for one of those years.

He was employed with the Omar Co. here while he was in the Reserves. His wife, the former Miss Blanche M. Sipe of Delaware, and two children reside with him at Elizabeth City. His parents are Mr. and Mrs. W. G. Millisor.

Painting Given Britain To Solidify Relations

LONDON (UP)—Marshall Field, American financier, has presented a valuable painting to the House of Commons as a gesture of Anglo-American friendship. The 48-square-foot painting, valued at $25,000, depicts a debate in Commons at the start of World War I.

Winston Churchill, then a man of 40, is one of the 110-parliamentary figures on the canvas painted by Leopold Braun, an artist of the modern French school who was given permission to work on it while Commons was in session in 1914.

Field originally purchased the painting for his own use but turned it over to Speaker of the House W. S. Morrison, because he felt it had greater historical significance and value to the British people.

Waldo School Children Aid Polio Center Campaign

$125 Check Presented Leader of Magnetic Springs Group

A project of some 40 fifth and sixth grade students at Waldo Local School today is helping push a drive for funds to establish a polio treatment center at Magnetic Springs a bit closer to its goal.

Sparked by Jimmy Axline, a sixth grade class member and himself a polio victim, the young fund raisers collected a total of $125 from three separate sources in two weeks' time.

A check for this amount was presented to Dr. Kenneth Keever —who is the driving force for the treatment center—at his office in Magnetic Springs Thursday afternoon by Jimmy and two schoolmates, Sally Patten, sixth grade, and Larry Demorest, fifth grade.

—:—

DR. KEEVER told them the Magnetic Springs Foundation was very grateful for their contribution and personally invited them to return for a visit when the treatment center is opened.

On presenting the check, Jimmy said he and his classmates were very glad to be able to help in the foundation and reported the twow classes enjoyed the project very much.

The idea for the fund raising project was developed by the boys and girls in the two classes taught by Mrs. Edna Ringert, according to John Minges, school superintendent who drove the three representatives to Magnetic Springs.

Three weeks ago, the boys and girls started planning a benefit basketball game as the first part of the project. Opposing teams in the game, played in the school gym on Dec. 2, were the fifth grade girls against the sixth grade girls and the fifth grade boys against the sixth grade boys.

—:—

WINNING TEAMS were the fifth grade boys captained by Larry Demorest and the sixth grade girls captained by Sally Patten. Total receipts from this game were some $30.

Not satisfied with this sum, the class members next convassed homes and stores in and near Waldo in a search for sales tax stamps they could turn in for cash. And find them they did—enough to raise another $20 for a total of $50.

But this still wasn't enough, so when the Waldo Parent-Teachers Association held a meeting last Tuesday night, the fifth and sixth graders were on hand to solicit more money for their fund. Their appeal to the PTA members was good enough to add another $75 to up the total to slightly over $125.

—:—

DR. KEEVER told the youngsters that the fund raising campaign for the foundation is progressing, but slowly. A total of $250,000 has been donated or pledged.

He reported all members of the Board of Trustees are highly optimistic, however, and feel certain the entire amount will be collected. There are several funds in Ohio which were collected for other charitable projects but for one reason or another were never used, he said. If these funds can be obtained for the foundation, they alone will cover much of the remaining $175,000 needed to renovate the former Park Hotel in Magnetic Springs into a polio treatment center.

Presently, the camaign for donations has slowed down so as not to conflict with the March of Dimes campaign, Dr. Keever said.

—:—

JIMMY, THE sixth grader, who sparked the campaign at Waldo School, was stricken with polio in 1948. Now 11 years old, he says he is getting along fine, but he still must wear braces on his partially paralyzed right leg. He received all his treatment at Children's Hospital in Columbus. He is the son of Mr. and Mrs. William Axline of near Waldo.

Sally Patten, who captained the winning girls team in the benefit basketball team, is the daughter of Mr. and Mrs. Paul H. W. Holler of Waldo, while Larry Demorest, captain of the winning boys team, is the son of Mr. and Mrs. Donald Demorest of near Waldo.

REPRESENTATIVES OF THE FIFTH and sixth grade classes at Waldo School are shown presenting a $125 check to Dr. Kenneth W. Keever as a donation to the Magnetic Springs Foundation. Handing the check to Dr. Keever is Jimmy Axline, himself a polio patient. Looking on are Sally Patten and Larry Demorest.

Schools Asked To Take Bigger Community Role

CHICAGO (UP — Dr. John T. Rettaliata, president of Illinois Institute of Technology, says it is necessary for educational institutions to achieve more intimate contact with their communities.

"In this day," he said, "the fruits of the tremendous intellectual capacity present in our universities should no longer be limited to the classroom.

"They should be made available to society, because society's need for them is very great.'

Rettaliata said "the ivory tower must become a hall in which the most practical problems are investigated."

Sales for Eskimo Cookbook Boom

ANCHORAGE, Alaska (UP)—One of the most unusual cookbooks ever written—stewed bear feet and boiled seagull eggs are a couple of its specialties—has been published here by the Alaska Crippled Children's Association.

It is the first Eskimo cookbook, and is written and illustrated by children of the Shishmaref day school.

The original idea for the 38-page book came from Isabelle Bingham, teacher at the school on the Bering Sea at the Arctic Circle. But the children put it together.

It has become a best-seller in Alaska and is available to gourmets anywhere by mail if they enclose an extra dime with a half dollar to cover handling and post age.

The cookbook was started as a class project after Miss Bingham asked them how certain native dishes were prepared. They tried to explain, and Miss Bingham suggested they write the recipes.

In a matter of weeks there were so many unusual recipes that a cookbook became inevitable. The children decided to have the Association publish it and all proceeds from its sale go to the organization.

Tasty Pie Crust Needs Balance of Ingredients

COLLEGE STATION, Tex. (UP) —The secret of flaky pastry is knowing how much fat and water to use with the right kind of flour, the Texas Agricultural Extension Service says.

Too much fat will make crumbly pastry, while too much water will produce a tough product. Handling too many times, over-mixing or using excess flour while rolling also will toughen pastry.

Good pastry is tender, flaky and has a golden brown color around the edge with the center not quite so brown. It has a rough and blistered texture rather than a smooth firm surface.

The 254 Texas counties range in size from Rockwall's 147 square miles to Brewster county's 6,208.

Proper Thawing Saves Cooking Time of Birds

COLLEGE STATION, Tex. (UP) —If your holiday turkey is a frozen, ready-to-cook one, thaw it in the refrigerator. Texas Agricultural Extension Service foods and nutrition specialists say this will save one and a half times as much cooking time as otherwise necessary.

If the refrigerator is used for thawing, allow about two days for a large whole bird, overnight for a small bird, a half or quarter. A cut-up turkey needs from three to nine hours to thaw sufficiently.

Australia Has Refugee Group

Council Formed for Protection of Migrants

SYDNEY, Australia (UP)—More than 200,000 refugees from Communism have formed an international organization in Australia to protect the rights of stateless migrants.

The people represented on the United Council of Migrants are stateless, and now have no national diplomatic or consular bodies to represent them. Migrants from 10 Soviet controlled countries are represented on the council — Bulgarians, Byelo-Russians, Czechs, Estonians, Hungarians, Latvians, Lithuanians, Poles, Slovaks, and Ukrainians.

The Council is thought to be the only organization of its type in the world. Headed by G. N. de Barcza, former Hungarian ambassador to Great Britain, the council will form a link between the migrants and the Australian government, and will help smooth the passage of the migrants into the Australian community. Australian minister for Immigration Harold Holt authorized formation of the organization.

Discussing the position of the 200,000 migrants in Australia who came from Communist-controlled countries, de Barcza said:

"Unlike imigrants from other lands, these people are refugees. Many of them have lived like hunted animals. Most of them have had to leave their families behind them. They are in a troubled state of mind.

"Unfortunatly many of them cannot speak English, and even those who can have difficulty in explaining their particular problems in a land which has had no experience of political persecution. In their difficulties they cannot turn to their embassies, or consulates for help and guidance, as they have none. One of the reasons for setting up the United Council of Migrants has been to supply that lack."

De Barcza said the council would help migrants whose families have been left behind in Iron Curtain countries to get their wives and children to Australia. By acting as a link with the Australian government, social groups, other Australian representative bodies, and the migrants, the council hopes to eliminate misunderstandings and help these stateless migrants to achieve full Australian citizenship.

Vice-presidents of the council are Count A. Poninski, former Polish ambassador to China, and J. J. Kais, an Estonian lawyer.

SANTA and the FLYING PUP

By LUCRECE HUDGINS BEALE

AP Newsfeature

Willie the pup saves the Dreamlin queen and returns with the queen, Mr. Not Much and Mr. Very Little to Santa Land. He tries once more to fly but ,alas, Willie still cannot get off the ground.

CHAPTER 17

Santa's great red sleigh rode through the night sky pulled by his eight flying deer. Santa held the reins and hummed a little song to himself. Beside him sat Willie.

"It doesn't matter about never being able to fly," thought Willie happily. "It's enough just to be with Santa wherever he is."

And he promised himself that from now on he would try to be a good pup and not cause Santa any more trouble.

Presently the sleigh landed on a roof top. Santa dragged out his big bag of toys and he and Willie slid down the chimney and left toys there for all the children who had written him their wishes. They went to another house and another until they had visited all the houses in the city. Then the reindeer carried them away to the next city.

ON AND ON they traveled around the whole wide world. Finally they came to the last city of all. When they had finished their visits there they saw a house where no light burned and no Christmas wreath hung.

Santa said, "That is strange. I have never had a letter from anyone in that house. I often wondered about it. This year I think I shall just go in and have a look."

Santa and Willie slid down the chimney and Santa lit a candle. Willie was tired now and sleepy. But as soon as he landed in the house he knew where he was. He pattered straight to the bedroom and up to the little cot by the window and sure enough there was Henrietta fast asleep.

HER FACE was thin and even Willie could see there were tears that had dried on her cheeks. On the floor by the cot was a tin pan. It was filled with milk and it was Willie's pan.

Beside the pan was a letter. Santa read it. It said, "Dear Santa, I have never asked for anything before but this year I would like my little lost puppy for Christmas."

"How sad!" said Santa. "I cannot give her her lost puppy but I can leave some toys though without her puppy I expect she will not enjoy toys."

Santa went to the sleigh and brought back his bag. He emptied everything that was left in it and put it all there on the cot for Henrietta.

ALL THE TIME Willie just sat there by the cot looking at Henrietta and remembering things of long ago.

Santa said, "Now it's home to Santa Land!"

Willie took a last look at Henrietta. Then he followed Santa up the chimney and across the roof and down to the ground to the sleigh. But he went slowly.

He Heard the Voice of Santa Calling, "A Merry Christmas to All."

Santa climbed in the sleigh. "Come on, Willie. I can't wait to be home!"

But Willie just stood there looking up at Santa and finnally he said, "I'm going to stay here."

"Stay here" cried Santa.

"Yes," said Willie. "You see—I am the puppy Henrietta lost. She needs me. I must stay."

He thought for an instant of wonderful Santa Land and dear Santa that he would never see again. Quickly because his heart was breaking and he couldn't bear to see Santa leave, Willie turned and ran back toward the house.

The the strangest thing happened. Willie wasn't walking any more. He was flying!

STRAIGHT to the roof top he flew easily, as softly as a leaf flying before the wind. Filled with astonishment he flew back to the sleigh.

"I can fly! I can fly!"

Santa beamed. "And why not" he asked. "For you are doing a truly unselfish deed!"

Then Santa and his sleigh rose into the air. Bursting with pride, Willie rose, too. Santa in his sleigh and Willie on secret wings circled the sky above Henrietta's home.

"I will never let her know," thought Willie happily. "But every night when everyone is asleep I shall come out and fly. And perhaps each Christmas eve I shall return to Santa Land and fly around the world once a year with Santa."

Then Santa waved farewell and Willie returned to Henrietta's house. As he snuggled down by the sleeping child he smiled to himself for he heard sleigh bells ringing and the far away voice of Santa calling, 'A Merry Christmas to All!"

Suggestion of Employe Brings Special Awards

ROCHESTER, N. Y. (UP) — An Eastman Kodak Co. employe, who received $125 for a suggestion, suddenly saw his award mushroom into $2,454 a year later.

Paul Ratigan of the production planning and control department suggested that a winding knob for a certain camera be made of plastic instead of metal that required certain finishes.

During the year production of the camera increased and further refinements were made that were possible only because of the adoption of Ratigan's suggestion.

Result: a surprise added award for the worker.

There was measureable oil production in 177 of the 254 Texas counties in 1950.

Teachers Warned To Consider Pupil

CHICAGO (UP) — Midwest educators recommond that high school teachers be more student-minded rather than subject-minded.

Eight-one per cent of the 10 school administrators questioned said there was a tremendous need for consideration of individual pupil differences and less stratification of subject matter.

Their suggestions for curriculum changes ranged from general "broadening" to inclusion of special guidance programs.

The survey was conducted by Science Research Association, Inc., publishers of testing and guidance materials, among educators in Iowa, Indiana, Illinois, Michigan and Wisconsin.

Sixty-five per cent said more participation of parents in school activities is needed.

Another 89 per cent wanted more attractive facilities for pupil activities to create a sense of school identity.

Only 33 per cent felt there was need for more individualized instruction and better techniques for motivating students. Better training of available elementary teachers to supply adequate individual pupil attention was recommended by 8 per cent.

Utah Demands Careful Use of State Payments

SALT LAKE CITY (UP)—The Utah Welfare Commission likes to help persons in need, but it objects to state funds being spent for unworthy purposes.

Commission Chairman H. C. Shoemaker nodded with satisfaction, after he recovered from his astonishment, when he received the following recommendation that one person be removed from state welfare rolls:

"Aid to dependent children funds are not to be used to buy hacksaw blades so boy friend can saw way out of Carbon County jail."

$6,500 THEFT REPORTED

DAYTON, Ohio (AP)—The owner of the Dale Fashion Shop in North Dayton reported the theft of $6,500 in checks and cash today. Owner Jack Goldstein told police when he opened the shop this morning he discovered the safe door ajar and the checks and cash missing.

Roast the Christmas Turkey to a Turn

Cauliflower With Cheese Sauce Is a Perfect Meal Side Dish

By CECILY BROWNSTONE
Associated Press Food Editor

You can roast your turkey to a turn this Christmas if you will pay attention to the temperature of the oven and the length of time the bird is in it. Here's a timetable, based on the latest research of a poultry test kitchen. But remember this is only a guide; differences among individual birds may necessitate a slightly increased or decreased total time.

The pounds given represent the ready - to - cook weight of the whole bird, and in each case the oven temperature should be slow (325 F) throughout the entire cooking period. Turkeys 4 to 6 pounds need 3 to 3¾ hours roasting time; those 6 to 8 pounds 3¾ to 4½ hours; those 8 to 10 pounds 4 to 4½ hours; those 10 to 12 pounds 4½ to 5 hours; those 12 to 14 pounds 5 to 5¼ hours; those 14 to 16 pounds 5¼ to 6 hours; those 16 to 18 pounds 6 to 6½ hours; those 18 to 20 pounds 6½ to 7½ hours; those 20 to 24 pounds 7½ to 9 hours.

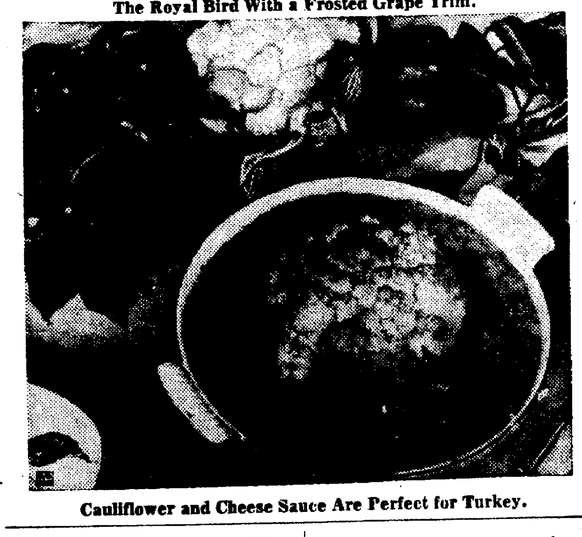
Now that the bird has been done right by, we suggest that you serve a delectable cauliflower dish with it. Here's the recipe:

CAULIFLOWER AU GRATIN

Ingredients: 1 medium head cauliflower, 1½ cups medium cream sauce, 3 tablespoons diced canned pimiento, 3 tablespoons diced green pepper, ¼ teaspoon salt, ⅛ teaspoon pepper, ⅛ teaspoon nutmeg, ¼ cup soft bread crumbs, ¼ cup grated cheddar cheese, 2 tablespoons butter or margarine.

Method: Wash and separate cauliflower into flowerets; do not remove tender inside leaves. Cook in small amount of boiling salted water until just tender. Drain; place in baking dish. Mix cream sauce with pimiento, green pepper, salt, pepper and nutmeg. Pour over cauliflower. Mix crumbs and cheese; sprinkle over sauce. Dot with butter. Bake in moderate (350 F) oven 10 to 15 minutes or until golden brown. Makes 6 servings.

The Royal Bird With a Frosted Grape Trim.



Cauliflower and Cheese Sauce Are Perfect for Turkey.

Scientists May Be Near Remedy for Dystrophy

SAN FRANCISCO, Calif. (UP) — Dr. J. Ray Van Meter, associate professor of neurology at the University of California medical school here, reports encouraging results from a new treatment of muscular dystrophy.

Dr. Van Meter has been treating 10 patients, suffering from the crippling and virtually hopeless disease, with amino acids and selected vitamins over periods ranging from two months to a year.

He said improvement was noticed in every patient and that they reported a return of strength and a sense of well-being. He added however, that the treatment cannot be considered a cure.

If the treatment is successful, he said, the patients probably will have to take replacement nutrients for the rest of their lives.

SATURDAY'S CHILD

EFFINGHAM, Ill. (UP)—Petty's department store employes are trying to figure out the significance—if any—of a theft from a Christmas display of lingerie. The missing item is a pair of black, lace-trimmed step-ins embroidered with the word "Saturday." They were taken from a box containing six other pairs, each a different color and each labeled for a different day of the week.

District News

Ashley

Lee Ebert presided at the Monday night meeting of Ashley Grange. A Christmas party and 50 cent gift exchange were announced for the Dec. 28 meeting and each family is requested to take candy or popcorn balls.

—:—

Mrs. Alice Raines, 45, who makes her home with her parents, Mr. and Mrs. E. L. Shaw of southeast of Ashley, escaped serious injury Tuesday night when returning from her work in University Hospital, Columbus. Her car slipped on the icy road, plunging through a guard rail and over a bank. It did not upset, but Mrs. Raines was badly cut by flying glass. The bone in one leg is cracked and may be broken. She is a patient at Jane M. Case Hospital, Delaware.

Carey

At a regular convocation of Carey Lodge No. 420, F&AM this week annual installation of officers was held. The ceremony marked the 81st installation of officers was held. The ceremony marked the 81st installation of Carey Masonic Lodge which saw Alfred M. Gardner installed as worshipful master, Ferdinand Williams as senior warden and Eugene Mullholand as secretary. Robert Troup of Upper Sandusky, district deputy inspector of the 13th Masonic District, was present for the occasion.

—:—

Following the tradition established nine years ago, the Carey High School Band presented its annual Christmas concert Sunday afternoon. A newly-released arrangement of six very old carols representative of Christmas music dating back as far as the 8th century was heard in "The Christmas Suite." More familiar music was presented in "Christmastide Overture" Featured with the band was Richard Phillips, alto saxophone soloist, who played "Chartreuse." Virginia Van Bureu was narrator of the concert.

—:—

Two young men from the Carey vicinity left Wednesday for induction into the armed forces. They were: Donald David Derr, of near Carey, and Samuel Waldrop McChesney, of near Carey.

University Receives Texas Fossil Cache

BERKELEY, Calif. (UP) — An elaborate collection of fossil-mammals that lived in Texas more than a million years ago will soon be in the custody of the University of California.

Dr. Don Savage, assistant curator of mammals at the university museum, said acquisition of the fossiled remains will come as a result of a point project carried out on the Berkeley campus in cooperation with the Panhandle-Plains Historical Society Museum at Canyon, Tex.

Dr. Savage will direct research on the specimens brought back by his party from the Pal Duro Canyon in the Texas Panhandle. He collected some of the specimens during a six-week "dig" in the canyon.

"Just one or two million years ago," the paleontologist said, "that part of Texas must have looked like the African veldt today. There was no canyon then, of course; just a large plain

"In that area we found fossils of camels, horses, hyena-dogs, saber tooth tigers, out-sized lions, mastodons, giant tortoises, deer, and antelope. And they all lived in the same place at the same time."

FALSE ALARM

NORTH TONAWANADA, N. Y. (UP) — Police investigated a complaint that two youths were "shooting up" a street with rifles pointed out the window of their moving car. They discovered the "guns" were broomsticks and the "shots" were the backfiring of the car caused by turning the ignition off and on.

ANNIE ROONEY By Darrell McClure

LOOKIT, ZERO—DID YA EVER SEE ANYBODY SO HAPPY BEFORE IN ALL YOUR LIFE AS MR. COBB IS SINCE HE ASKED MRS. MODELY TO MARRY HIM ??
COURSE, MR. COBB THINKS IT WAS ALL HIS OWN IDEA— BUT MRS. MODELY TOLD ME SHE MAN-NOO-VERED IT— THAT'S A BIG WORD MEANIN' SHE WAS REALLY THE ONE WHO FIXED IT ALL UP—
GOLLY—THEY'RE THE TWO SWELLEST PEOPLE IN THE WHOLE WORLD AN' THEY ARE GONNA BE TOGETHER ALWAYS—LIKE IN A FAIRY TALE—NOW I KNOW NOTHIN' BAD COULD EVER HAPPEN
BUT MEANWHILE—
I'M WARNING YOU, MINNIE MEANY—KEEP OUT OF MY AFFAIRS! MAYBE I DON'T KNOW WHERE THAT LITTLE BRAT ANNIE ROONEY IS AT THE MOMENT, BUT—
"BUT" WHAT? YOU LET THAT LITTLE GOLD MINE GET AWAY FROM YOU AND YOU HAVEN'T THE FOGGIEST IDEA OF WHERE SHE IS— AND THE NAME IS MINERVA, NOT MINNIE, IF YOU PLEASE!
